### **SECTION 16(A) BENEFICIAL OWNERSHIP REPORTING COMPLIANCE**

Section 16(a) of the Exchange Act requires our officers, directors, and any persons who own more than 10% of common stock, to file reports of ownership of, and transactions in, our common stock with the SEC and furnish copies of such reports to us. Based solely on our review of the copies of such forms and amendments thereto furnished to us and on written representations from our officers, directors, and any person whom we understand owns more than 10% of our common stock, we found that during 2008, Jerry I. Treppel, one of our directors, failed to timely file one Form 4 report with the SEC to report two transactions and changes in beneficial ownership. All such transactions have since been reported on Form 4 reports.

### **Code of Ethics**

Our Board has adopted a Code of Ethics that applies to our principal executive officer, principal financial officer, principal accounting officer, controller and persons performing similar functions. We will satisfy any disclosure requirements under Item 10 of Form 8-K regarding an amendment to, or waiver from, any provision of the Code of Ethics with respect to any such persons performing similar functions by disclosing the nature of such amendment or waiver on our website or in a report on Form 8-K. A copy of the Code of Ethics can be obtained at our website. Our website address is <http://www.akom.com>. In addition, our Board has adopted a general code of ethics that applies to all our employees and directors.

Our Audit Committee has adopted a whistleblower policy in compliance with Section 806 of the Sarbanes-Oxley Act. The whistleblower policy allows employees to confidentially submit a good faith complaint regarding accounting or audit matters to the Audit Committee and management without fear of dismissal or retaliation. This policy was distributed to all our employees for signature and signed copies are on file in our Human Resources Department.

### **Audit Committee**

The Audit Committee of our Board oversees our corporate accounting and financial reporting process and audits of our financial statements. For this purpose, the Audit Committee performs several functions. The Audit Committee evaluates the performance of and assesses the qualifications of the independent auditors; determines and approves the engagement of the independent auditors; determines whether to retain or terminate the existing independent auditors or to appoint and engage new independent auditors; reviews and approves the retention of the independent auditors to perform any proposed permissible non-audit services; monitors the rotation of partners of the independent auditors on our audit engagement team as required by law; confers with management and the independent auditors regarding the effectiveness of internal controls over financial reporting; establishes procedures, as required under applicable law, for the receipt, retention and treatment of complaints received by Akom regarding accounting, internal accounting controls or auditing matters and the confidential and anonymous submission by employees of concerns regarding questionable accounting or auditing matters; reviews and approves related party transactions; reviews the financial statements to be included in our Annual Report on Form 10-K and quarterly reports on Form 10-Q; and discusses with management and the independent auditors the results of the annual audit and the results of the reviews of our quarterly financial statements. The Audit Committee met eight times during the 2008 fiscal year. A current copy of the Audit Committee Charter, which has been adopted and approved by the Board, is available on our website at <http://www.akom.com>.

The Board has reviewed NASDAQ's definition of independence for Audit Committee members and has determined that all members of our Audit Committee are independent under the listing standards of NASDAQ. The Board has determined that Mr. Ellis qualifies as an "audit committee financial expert," as defined in applicable SEC rules. The Board made a qualitative assessment of Mr. Ellis' level of knowledge and experience based on a number of factors, including his formal education, his past experience as a partner with Arthur Andersen LLP, and his past experience as a director of Sciele Pharma, Inc. (a distributor of pharmaceuticals formerly known as First Horizon Pharmaceutical Corporation).

**Procedures by which Stockholders may Nominate Directors**

There have been no material changes in the procedures by which stockholders may nominate directors since our last definitive Proxy Statement.

**Item 11. Executive Compensation.**

**Compensation Discussion and Analysis**

The following Compensation Discussion and Analysis addresses the objectives, principles and features of our executive compensation programs, as well as a summary of compensation decisions we made for our executive officers and other senior leaders.

***Compensation Philosophy and Objectives.***

We are an entrepreneurial specialty pharmaceutical company operating in an extremely competitive environment that requires our business and compensation philosophy to be flexible and adaptive. With respect to our CEO, CFO, and our three other most highly compensated executive officers (the "Named Executive Officers"), this philosophy has evolved over a number of years as our operations, business and finances have developed and changed.

The Compensation Committee has maintained a structured approach to compensation for our Named Executive Officers. With the periodic assistance of executive compensation consultants, the Committee has focused on identifying the appropriate mix and alignment of compensation in order to further our strategic objectives and the interests of our shareholders.

In late 2005 through early 2006 we retained a consultant to assist in structuring our CEO's employment arrangements and help us set his long-term compensation. Our Board and shareholders approved expanded equity instrument alternatives under our Amended and Restated Akorn, Inc. 2003 Stock Option Plan (the "Amended 2003 Plan"). In April 2005 we made our first grants of restricted stock under that plan. Finally, we instituted formal management-by-objectives (MBO) annual performance awards for all of our Named Executive Officers, while retaining the flexibility to reward achievements going beyond specific pre-identified objectives based on unforeseen circumstances. In 2007 we continued the formal MBO annual performance awards for our Named Executive Officers, although in late 2007, on the recommendation of our CEO, we decided not to award annual bonuses due to our financial performance in 2007.

In 2008, the Compensation Committee again retained an executive compensation consultant, Watson Wyatt, to review our compensation practices for the Named Executive Officers. The Compensation Committee, through an interview process of other compensation consultants, selected Watson Wyatt. This consultant determined, as had the earlier ones, that our cash compensation packages, inclusive of base salaries and annual bonuses, were below median for our peers in the market place and that a long term equity incentive program should be implemented. Watson Wyatt provides periodic reports to the Compensation Committee as well as to our Board. The Board and the Compensation Committee have had discussions regarding the consultant's development of a framework for the long-term incentive program which would provide equity awards under the Amended 2003 Plan to the Named Executive Officers and certain other officers based on the attainment of company and individual objectives over rolling three-year periods. Watson Wyatt was also engaged to develop a retention program for our senior managers. The Compensation Committee has decided to postpone further decisions regarding the long-term incentive and other potential retention programs until a complete financial review of the Company has been completed. In the past, when consultants have recommended longer-term programs, the Board has used the recommendations as a framework for making compensation incentive awards, but has not adopted a formal plan of any kind. Because of our need to remain flexible and entrepreneurial we would not expect to change this type of approach.

In early 2009, we again decided not to award bonuses based on the financial performance in 2008. The 2009 MBO's will be determined after a complete financial review of the Company has been completed.

We seek to attract and retain results-oriented, overachieving executives who can lead the company to sustained growth and profitability. Our overall compensation packages to our Named Executive Officers reward them for attaining our corporate financial and growth objectives and incent them to maintain and expand our prospects for new product development and earnings growth. At the same time, we provide benefits that provide security for the Named Executive Officers and their families.

## [Table of Contents](#)

The Compensation Committee believes executive compensation policies should assure that executives are provided incentives and compensated in a way that advances both the short and long term interests of shareholders while also assuring that we are able to attract and retain executive management talent. Specifically, the Compensation Committee's objective is the establishment of executive compensation strategies that:

- Assure executive compensation is based upon performance in the achievement of pre-determined financial and business objectives,
- Provide equity-based compensation incentives to meld the financial interests of executive officers with those of shareholders and
- Provide incentives that promote executive retention.

Our Compensation Committee is composed exclusively of independent directors and meets regularly both with and without management. From time to time the Compensation Committee retains outside advisors chosen by the Compensation Committee, and works with management and such advisors and receives and reviews their recommendations regarding executive compensation as it deems appropriate. However, the Compensation Committee often seeks the input of other Board members, including Dr. Kapoor, who has deep experience in ownership and management of pharmaceutical companies.

The Compensation Committee annually sets Named Executive Officer base salaries, fixes annual incentive compensation pay for performance objectives, based on both individual and company goals, makes actual awards of annual incentive compensation based on attainment of these goals and other factors the Compensation Committee deems appropriate, and considers awards of long-term equity compensation. In the case of our former CEO, the Compensation Committee and the Board added specific long-term incentive compensation commitments and protections in the event of termination without cause and termination related to a change of control to his employment agreement.

With respect to CEO and CFO compensation, we evaluate the compensation mix provided by our peers, as well as the other factors set forth in the Compensation Committee's charter, although we are not contemplating any changes in the compensation of our current Interim CEO at this time. Because of our unique specialty pharmaceutical business plan and the lack of a single direct competitor across all market segments, it is difficult to formulate an appropriate peer group. Many companies included in any peer group will include companies both significantly larger and somewhat smaller than us. Nonetheless, in structuring the CEO's compensation for 2007 and employment agreement, the Compensation Committee relied upon information regarding practices at the following companies: Abgenix, Adolor, Alpharma, APP Pharmaceuticals, Inc. (formerly American Pharmaceutical Partners), Bausch & Lomb, Conceptus, CV Therapeutics, Gene Logic, Hospira, I-Flow, ISTA Pharmaceuticals, KV Pharmaceutical Company, Meridian Bioscience, Neogen, Neurogen, Noven Pharmaceuticals, OraSure Technologies, Orchid Cellmark and Theragenics.

In reviewing compensation practices with respect to compensation for the Named Executive Officers, with the assistance of the executive compensation consultant retained in 2008, the list of competitors was revised and updated to include firms such as Auxilium Pharmaceuticals Inc., Bradley Pharmaceuticals Inc., Caraco Pharmaceutical, Conceptus Inc., Medicines Co., Sciele Pharma, Inc. and ViroPharma Inc. Several of the companies identified in the 2007 study were also retained in the comparative pool.

**Components of Compensation.** The following are the key components of compensation for our Named Executive Officers. Overall, these components are designed to provide the types of incentives to our employees required for an entrepreneurial growth company like us:

- base salary,
- performance-based annual bonus, which may be paid in cash, stock units, shares of stock or a combination of these,
- periodic grants of long-term stock-based compensation, such as stock options, restricted stock units, performance shares and/or restricted stock, which may be subject to performance-based and/or time-based vesting requirements, and
- benefits.

## Table of Contents

Base Salary. In setting the CEO and CFO's base salaries, we attempt to be competitive based on analysis of peer group and other information. In 2005 we granted 5% increases in base salary to both the CEO and CFO, in 2006 we granted additional increases after review with an independent consultant, and in 2007, we granted further increases which we believed were competitive and appropriate. Our former CEO's employment agreement required an increase from \$400,000 to \$440,000 if the company became profitable in 2006. Although we did not become profitable in 2006, based on the improvement in our business and various performance parameters, we granted that increase. Mr. Whitnell's salary for 2007 was increased from \$250,000 to \$275,000 per year. In January 2009, our former CEO's salary was increased to \$477,000 and Mr. Whitnell's was increased to \$298,000.

In setting the base salaries of our Named Executive Officers other than the CEO and CFO, we look primarily to research by our Vice President of Human Resources and, as discussed, our retained executive consultant. Part of the VPHR's job, on a company-wide basis, is to evaluate compensation levels and composition and fashion competitive pay packages. He also works closely with the CEO in planning for acquisition and retention of employees. Based on his research and the recommendations of the CEO we fix these salaries at rates that we believe are generally competitive, but are not at the high-end of our competition.

On the recommendation of our former CEO, we did not increase the salaries of any of our Named Executive Officers for 2008 due to our financial performance in 2007. In January 2009, although our financial performance in 2008 did not fully meet expectations, given the base salary freeze the year before, for retention purposes, we awarded base salary increases of 8.5% to each of the other Named Executive Officers.

### Annual Incentive Compensation.

In 2006 and 2007 we structured specific annual incentive compensation pay based upon performance objectives for both our CEO and CFO. After the Board reviewed the strategic plan and budget for the year, the Compensation Committee set annual incentive compensation targets designed to induce achievement of that plan and budget. We set objectives for our CEO and CFO that could have resulted in the CEO and CFO receiving bonuses of 75% and 45% of their respective base compensation if all objectives were fully achieved, with additional 25% and 15% opportunities for "stretch" bonuses, respectively. The CEO's employment agreement provided for annual bonus opportunities equal to at least 75% of his base salary, with "stretch" bonus opportunities for an additional 25%. Also, in 2006 and 2007, we approved specific objectives and target percentages of compensation for the Named Executive Officers other than the CEO and CFO, based on the CEO's recommendation and our review of the appropriate objectives for these individuals.

Annual cash bonus incentive awards were earned in 2006 by Mr. Przybyl and Mr. Whitnell based on Executive Bonus Agreements dated April 27, 2006, between us and Mr. Przybyl and Mr. Whitnell, respectively. Mr. Przybyl received a bonus equal to \$221,614, pursuant to his Executive Bonus Agreement. Mr. Whitnell received a bonus equal to \$64,355, pursuant to his Executive Bonus Agreement. Mr. Przybyl and Mr. Whitnell were also awarded additional cash bonuses for reasons not reflected in their Executive Bonus Agreements, resulting from developments not contemplated or foreseen at the time those agreements were entered into. These discretionary bonuses were in the amounts of \$33,386 to Mr. Przybyl and of \$31,270 to Mr. Whitnell, in recognition of their contributions towards attainment of the following special achievements during 2006: (a) the significant number of strategic alliances formed by us, which far exceeded the number expected and proposed; (b) a substantial increase in our market capitalization; and (c) the conversion of our Series A Preferred Stock and Series B Preferred Stock into common stock.

Pursuant to our 2007 annual MBO program for our former CEO, Mr. Przybyl was eligible to receive a one-time cash bonus equal to the sum of up to \$330,000, which equals 75% of his annual base compensation, if he achieved all of the performance measurements described below. In addition, he was eligible to receive up to \$110,000 (stretch bonus), which equals 25% of his annual base compensation, if all of the performance measurements were met and the EBITDA (earnings before interest, taxes, depreciation and amortization) measurement was overachieved by specified amounts. Mr. Przybyl's performance measurements included achieving specific objectives for (i) sales, (ii) earnings per share, (iii) EBITDA, (iv) our first vaccine product, (v) Vancomycin oral capsule product, (vi) a completed specific type of capital offering, and (vii) resolution of the FDA warning letter with respect to our Decatur manufacturing facility.

Pursuant to our 2007 annual MBO program for Mr. Whitnell, he was eligible to receive a one-time cash bonus equal to the sum of up to \$123,750, which equals 45% of his annual base compensation, if he achieved all of the performance measurements. In addition, he was eligible to receive up to \$41,250, which equals 15% of his annual base compensation, if all of the performance measurements were met and the EBITDA measurement was overachieved by specified amounts. Mr. Whitnell had the same sales, earnings for share, EBITDA and capital offering performance measurements as Mr. Przybyl, and (i) achievement of a specified gross

## [Table of Contents](#)

margin (exclusive of vaccine), (ii) NASDAQ listing of our common stock, and (iii) material compliance with Section 404 of the Sarbanes-Oxley Act with no material weaknesses or significant deficiencies in our internal controls over financial reporting.

For 2007, the objectives for Dr. Alam, and Messrs. Sabat and Silverberg all included the same sales, earnings per share and EBITDA performance measurements. However, the remainder of their measurements related more specifically to attainment of personal objectives. Dr. Alam's included the company entering into new business development agreements and completing human clinical trials of two drugs; Mr. Sabat's included entering into Group Purchasing Organization contracts for certain drugs, meeting a minimum vaccine sales target, and reducing days of inventory at wholesalers; and Mr. Silverberg's included commercialization of one of our products, IC-Green, through our Decatur manufacturing facility, a successful drug master file for a particular product, and a successful initial exhibit batch for the first Serum drug product.

However, with respect to awards of annual incentive compensation for 2006 and 2007, after the end of each of these years, we determined that the MBO formulas did not correctly reflect unanticipated events. With respect to 2007, on February 8, 2008, upon the recommendation of the former CEO, the Compensation Committee resolved not to pay any cash bonuses to our Named Executive Officers due to our financial performance in 2007. With respect to 2005 and 2006, the awards for partial achievement of the indicated performance measurements were not sufficient to recognize unanticipated achievements that provided tangible benefits to us during the year in question and we amplified the otherwise required awards.

Objectives for 2008 for the Named Executive Officers were developed in a manner consistent with the structured approach employed in 2006 and 2007. Mr. Przybyl's objectives included specific targets for sales, EBIT and EBITDA, the launch of a new product, oral Vancomycin capsules, and the achievement of certain revenue targets for the product, the launch of our first NDA product, Akten™, and the achievement of certain revenue targets for the product, the purchase of our radiation antidote product, DTPA, by various federal agencies at certain revenue levels and the raising of capital or debt to ensure adequate cash reserves for the company. His potential bonus payout as a percentage of base salary remained unchanged from the previous year.

Mr. Whitnell's 2008 objectives included the same revenue, EBIT and EBITDA targets as Mr. Przybyl's objectives. In addition his bonus was predicated on the company's achievement of a base business gross margin target, the establishment of a new commercial banking relationship, continued compliance with SOX 404 with no material control weaknesses or significant deficiencies and the raising of capital or debt to ensure adequate cash reserves for the company. His potential bonus payout as a percentage of base salary remained unchanged from the previous year.

Likewise, objectives were established for the remaining Named Executive Officers. Each officer was assigned the same revenue, EBIT and EBITDA targets as the CEO and CFO. In addition, Dr. Alam was tasked with completing new business development agreements with specified global partners, completing certain clinical trials for new products in development, coordinating the launch of oral Vancomycin capsules and Akten™ and achieving specified revenue levels for our contract manufacturing business.

Mr. Silverberg was tasked with assisting a major global partner in achieving FDA PAI/cGMP compliance with regard to certain high potential products in development, obtaining regulatory approval for a new products and enabling their market launches, achieving full commissioning for parts of our lyophilization system at our Decatur plant and successfully passing any and all FDA on-site inspections at our two manufacturing sites.

Mr. Sabat was tasked with overseeing the successful launch and achievement of specified revenue levels for oral Vancomycin, the sale of a specified number of doses of our multi-dose TD vaccine, the purchase of our radiation antidote product, DTPA, by various federal agencies at certain revenue levels and the reduction of wholesaler inventories to specified levels.

In November, 2008, upon FDA approval of our first-ever NDA product, Akten™, at the recommendation of the former CEO, Dr. Alam, who had been instrumental in the development and regulatory approval of the product, was granted a discretionary award of \$50,000 and 50,000 non-qualified stock options. In early 2009, after it reviewed our overall performance the previous year, and because insufficient progress had been made in achieving the overall revenue, EBIT and EBITDA goals and the other objectives of the Named Executive Officers, the Compensation Committee determined that bonuses would not be paid for 2008.

Long-Term Incentive Compensation. As a company focused on growth we believe it is essential to provide our Named Executive Officers with significant long-term incentive compensation that aligns their interests with those of our shareholders. This is especially important because we do not provide any significant retirement benefits to our Named Executive Officers.

## [Table of Contents](#)

Therefore, for their future financial well-being, they are expected to look to our long-term success, and this is beneficial for our shareholders.

In 2006, we structured specific arrangements in our former CEO's employment agreement calling for equity compensation designed to provide the CEO with opportunities for equity ownership of up to 2.5% of our outstanding stock, which is an objective in line with the equity ownership of CEOs in our peer group. Such a significant equity ownership potential gave the CEO an incentive to increase the value of our stock. We have provided similar, but lesser equity compensation awards, to the CFO in recognition of his efforts on behalf of the company and to provide appropriate incentives to him as well. Other Named Executive Officers receive equity compensation based primarily on recommendations by the CEO. On January 1, 2007 we awarded stock options to our former CEO as required by his employment agreement, and to each of the other Named Executive Officers.

In 2008 we retained the consulting firm of Watson Wyatt to advise us regarding appropriate long-term compensation planning for our Named Executive Officers and we anticipate that we will continue to work with that firm to develop a more formal program for their long-term compensation. That firm was one of three identified by management for review by the Compensation Committee and management, and ultimate selection by the Compensation Committee. As noted, the Board is considering adopting a long-term incentive program in 2009 for the Named Executive Officers.

### Benefits.

*Post-Termination Payments.* Our employment agreement with our former CEO, Mr. Przybyl, provided for post-termination benefits under the circumstances specified therein. These included, in the event of termination without cause or certain terminations by the CEO for "good reason," accelerated vesting of equity compensation awards, and multiples of base salary and past bonus compensation. These are increased in the event such a termination occurs after a change in control. See "Former Chief Executive Officer," below.

*Company-Wide Benefits.* Executive officers receive other standard benefits, including medical, disability and life insurance and, in certain instances, a car allowance. All employees who have attained the age of 21 are eligible for participation in our 401(k) Plan. The company's matching contribution is a percentage of the amount contributed by each employee and is funded on a current basis.

*ESPP.* The Akorn, Inc. Employee Stock Purchase Plan permits eligible employees to acquire shares of our common stock through payroll deductions not exceeding 15% of base wages, at a 15% discount from market price.

*Perquisites.* We provide limited perquisites to our Named Executive Officers in amounts we believe are appropriate. Our former CEO was provided with certain of his perquisites under the terms of his employment agreement. See "Summary Compensation Table," and "Former Chief Executive Officer," below.

### *Other Considerations.*

Tax Considerations. It has been and continues to be our intent that all non-equity incentive payments be deductible unless maintaining such deductibility would undermine our ability to meet our primary compensation objectives or is otherwise not in our best interest. At this time, essentially all compensation (except certain equity incentives) paid to the Named Executive Officers is deductible under Section 162(m) of the Internal Revenue Code. We also regularly analyze the tax effects of various forms of compensation and the potential for excise taxes to be imposed on the executive officers which might have the effect of frustrating the purposes of such compensation.

Accounting Treatment Considerations. We are especially attuned to the impact of FAS 123R with respect to the grant and vesting of equity compensation awards. Prior to the granting of such awards, we analyze the short and longer-term effects of any particular award on our budget for the year of grant and anticipated financial impact in future years. This information is taken into account in determining the type and vesting parameters for equity-based compensation awards.

*Timing of Equity Grants and Equity Grant Practices.* The Compensation Committee makes grants of equity compensation to all of the Named Executive Officers and any other executives that are required to file reports under Section 16 of the Exchange Act. However, with regard to other equity compensation awards, it has delegated authority to the Vice President, Human Resources, with

## [Table of Contents](#)

the understanding that he will consult and be directed by the CEO with respect to such grants. All awards are made based on the closing price of our stock on the date of the award.

The timing of certain awards to the former CEO were specifically outlined in his employment agreement. Otherwise, generally, awards are made in the first quarter of each year to our Named Executive Officers as well as other employees based upon the recommendations of the CEO in consultation with the Vice President, Human Resources. In addition, awards are made to new employees at the time of their joining the company, and to employees who are promoted during the year. The timing of such awards depends on those specific circumstances and is not tied to any other particular company event, anticipated events or announcements.

- (1) The amounts shown in this column are the annual cash bonus incentive awards earned in the applicable year and paid to the Named Executive Officers in the following year. No cash bonuses were earned in 2007 or 2008, except for Dr. Alam's bonus related to the FDA approval of Akten™. The annual cash bonus incentive awards earned in 2006 by Mr. Przybyl and Mr. Whitnell were based on Executive Bonus Agreements dated April 27, 2006, between us and Mr. Przybyl and Mr. Whitnell, respectively. Mr. Przybyl received a bonus equal to \$221,614, pursuant to his Executive Bonus Agreement. Mr. Whitnell received a bonus equal to \$64,355, pursuant to his Executive Bonus Agreement. Mr. Przybyl and Mr. Whitnell were also awarded additional cash bonuses for reasons not reflected in their Executive Bonus Agreements, resulting from developments not contemplated or foreseen at the time those agreements were entered into. These discretionary bonuses were in the amounts of \$33,386 to Mr. Przybyl and of \$31,270 to Mr. Whitnell, in recognition of their contributions towards attainment of the following special achievements during 2006: (a) the significant number of strategic alliances formed by us, which far exceeded the number expected and proposed; (b) a substantial increase in our market capitalization; and (c) the conversion of our Series A Preferred and Series B Preferred Stock into common stock.
- (2) This column shows the amount we have expensed during the applicable year under Statement of Financial Accounting Standards No. 123 (revised 2004), "Share Based Payment" ("FAS 123R") for all outstanding restricted stock awards. These amounts were determined by multiplying the number of restricted shares granted by the closing price of our common stock on the date of grant, allocated over the vesting period of the award. They include awards granted in prior fiscal years vesting in the stated fiscal year. Additional information regarding these awards is included in the notes to the "Grants of Plan-Based Awards" and "Outstanding Equity Awards" tables.
- (3) This column shows the amount we have expensed under FAS 123R during the applicable year, excluding an estimate of forfeitures related to service-based vesting conditions, for all outstanding stock option awards and includes compensation cost recognized in the financial statements with respect to awards granted in previous fiscal years and in the applicable year. These amounts were determined as of the options' grant dates using a Black-Scholes option valuation model. The assumptions used were the same as those reflected in Note I to our consolidated financial statements for the year ended December 31, 2008.
- (4) The amounts reported in this column represent the dollar amount for each Named Executive Officer for perquisites and other personal benefits, tax reimbursements, our matching contributions to the Akorn 401(k) savings plan, insurance premiums, and other benefits as follows:

- On November 19, 2008, Dr. Alam was granted options to acquire shares of our common stock. The options vest over a three year period at a rate of 1/3 per year beginning on the anniversary of the grant date. The FAS 123R valuation of this stock option grant is \$0.83 per share. See “Outstanding Equity Awards at Fiscal Year-End” for more information on vesting schedules of outstanding options.
- The per-share exercise or base price of the options granted in the fiscal year is based on the closing price of our common stock on the grant date of each respective option.
- The grant date fair value of the option awards granted on November 19, 2008 is based on the closing price of our common stock on that date, or \$1.55 per share. The grant date fair value of the stock option awards was determined using a Black-Scholes option valuation model. The assumptions used were the same as those reflected in Note I to our consolidated financial statements for the year ended December 31, 2008.

**Former Chief Executive Officer**

On April 24, 2006, we entered into an Executive Employment Agreement (the “Employment Agreement”) with Mr. Arthur Przybyl, then our President and Chief Executive Officer. The Employment Agreement had an initial term of three years, but was terminable earlier by either party. Under that agreement, Mr. Przybyl’s base salary for 2006 was \$400,000. The Board increased his salary to \$440,000 for 2007 and 2008, and to \$477,000 by January of 2009. Mr. Przybyl was also eligible to receive annual bonuses, payable at the discretion of the Board, upon recommendation of the Compensation Committee. As explained in “Annual Incentive Compensation” above, Mr. Przybyl received \$255,000 in bonus for 2006, but none for 2007 or 2008. He also received health, insurance and retirement benefits generally available to our executives and certain perquisites, including a vehicle allowance of \$10,000 per year.

In addition, as required by his Employment Agreement, Mr. Przybyl received: (i) 250,000 restricted shares of our common stock on April 20, 2006, (ii) options to purchase 500,000 shares of our common stock on April 20, 2006 and (iii) options to purchase another 400,000 such shares on January 1, 2007. Both the restricted shares and the options were subject to vesting schedules (50% of the restricted shares on the first anniversary of their issuance, with an additional 25% scheduled for vesting on the second and third anniversaries, and, in the case of the options, 25% when the options were granted, with an additional 25% scheduled to vest on first, second and third anniversaries of the grant dates).

Under his Employment Agreement, Mr. Przybyl’s employment was terminable by us for “Good Cause” (as defined in the agreement) or “Without Cause,” by Mr. Przybyl for “Good Reason” (also defined in the agreement) or otherwise, voluntarily, even without Good Reason, including by either party if the agreement was not renewed after expiration of the initial three-year term or any extension term. It provided that, in connection with any type of employment termination, Mr. Przybyl would receive what the agreement referred to as the “Standard Entitlements”, they being base salary pro rated through the date of termination and any benefits and expense reimbursements to which he was entitled through that date, less all applicable withholdings and deductions. The agreement and related stock agreements also addressed accelerated vesting of any unvested portion of the restricted shares and stock options described above.

In addition, the Employment Agreement provided that, if we terminated Mr. Przybyl Without Cause, he departed for Good Reason or either party notified the other of non-renewal effective at the end of the initial or any extension term of the agreement, Mr. Przybyl was entitled to the Standard Entitlements plus Severance Payments. Severance Payments would have consisted of: (i) 18 months of base salary payable, in the discretion of the Board, in a lump sum or over time in accordance with our regular payroll cycle, (ii) bonus equal to (a) 1.5 times the last annual bonus Mr. Przybyl had received if the termination occurred during 2006 or (b) 1.5 times the average of the last two annual bonuses Mr. Przybyl received if the termination occurred after 2006 and (iii) accelerated vesting of unvested equity awards that would otherwise have vested during the 18-month period after termination. The Severance Payments were conditioned on Mr. Przybyl’s complying with all surviving provisions of the Employment Agreement, his executing a full general release and his serving as a consultant, for us, for up to 30 days at his then-current base salary if the Board so requested.

## [Table of Contents](#)

The Employment Agreement also prescribed additional severance payments in the event of certain terminations following a change of control of Akorn and contained confidentiality, non-competition, non-solicitation and mandatory arbitration provisions. Also, in connection with his serving as our CEO, we provided Mr. Przybyl with supplemental indemnity assurances respecting any claims associated with his executing, filing or submitting certifications of SEC reports for periods preceding his direct supervision of financial and accounting matters.

Mr. Przybyl ceased performing duties as our President and Chief Executive Officer on January 29, 2009 after, that same day, a meeting of our Board and then a meeting among two directors and Mr. Przybyl. As explained in our Current Report on Form 8-K filed with the SEC on February 3, 2009, we originally anticipated that we would be making the Severance Payments to Mr. Przybyl, in addition to paying him the Standard Entitlements. We believe Severance Payments would have been \$715,500 for the salary component (see (i) in the previous paragraph) and \$0 as the bonus component (see (ii)(b) in that paragraph and because the Board awarded no bonuses for 2007 and 2008).

However, after January 29, 2009, the Board concluded that the company had grounds to terminate Mr. Przybyl for Good Cause. Accordingly, it so notified Mr. Przybyl, who in the meantime had accepted a job as the Chief Executive Officer of ANI Pharmaceuticals, and started work there on or about March 9, 2009. On April 3, 2009, Mr. Przybyl filed a demand for arbitration pursuant to his Employment Agreement. We expect to pursue counterclaims against Mr. Przybyl in that arbitration. That matter is in its very early stages.

Mr. Przybyl's restricted stock, and his options granted April 20, 2006 and January 1, 2007, vested fully irrespective of the character or circumstances of his employment termination. However, the termination of Mr. Przybyl's employment causes those options to expire three months after that termination. The per share exercise prices of those options are \$5.05 and \$6.25, both figures being substantially above current trading prices of our stock.

**Director Compensation**

Director compensation is set by the Compensation Committee in coordination with management and submitted to the Board for approval. In 2007, the Compensation Committee reviewed director compensation of a peer group consisting of Abraxis Bioscience, Adolor Corp, Alpharma, Bausch and Lomb, Conceptus, CV Therapeutics, Gene Logic, Hospira, I Flow, ISTA Pharmaceuticals, KV Pharmaceutical, Meridian Bioscience, Neogen, Neopharm, Neurogen, Noven Pharmaceutical, Option Care, Orasure Technologies, Orchid Cellmark, Sciele Pharma, and Theragenics. This peer group was developed by Equilar, Inc., a company on contract with the company to provide compensation information. The peer group information showed the median total annual compensation for peer group directors to be \$115,819. Based upon this data, the Compensation Committee recommended and the Board approved total annual compensation for our non-management directors of \$90,000, (dependent on stock price in large part). As a result, certain changes were made to the compensation of our non-management directors reflected in their 2008 compensation as described below.

Each director other than our former CEO and Chairman receives a fee for his services as a director of \$1,500 per regular meeting of the Board attended in person, \$500 per telephone meeting attended and \$500 per committee meeting attended, plus reimbursement of expenses related to thereto. Each of our non-management directors also receives an annual retainer in the amount of \$20,000. The chairs of the Audit Committee, Compensation Committee and Nominating and Corporate Governance Committee also receive annual compensation of an additional \$5,000. The Chairman of the Board receives \$50,000 per year for his services.

Messrs. Johnson, Treppel and Ellis were granted options to acquire 20,000 shares of our common stock on January 1, 2007 under our Amended and Restated Akom, Inc. 2003 Stock Option Plan ("Amended 2003 Plan"), in recognition of their service in 2006, with 2/3 of such options vesting immediately and the remainder vesting on January 1, 2008. Also, on January 1, 2007, these same directors were granted options to acquire 30,000 shares of our common stock with 1/3 of the options vesting at issuance and 1/3 vesting each year after issuance. On May 24, 2007, upon election to the Board, Dr. Kapre and Mr. Wall were each granted options to acquire 20,000 shares of our common stock vesting immediately at issuance. Options granted under the Amended 2003 Plan expire five years from the date of grant. Also, on January 1, 2008, each of our independent directors and Dr. Kapre were granted 10,000 restricted stock awards with 1/4 of the awards vesting at issuance and 1/4 vesting each year after issuance.

**Item 13. Certain Relationships and Related Transactions and Director Independence.**

**CERTAIN RELATIONSHIPS AND RELATED TRANSACTIONS**

**Review and Approval of Transactions with Related Persons**

Either the Audit Committee or the Board approves all related party transactions. The procedure for the review, approval or ratification for related party transactions involves discussing the transaction with management, discussing the transaction with the external auditors, reviewing financial statements and related disclosures and reviewing the details of major deals and transactions to ensure that they do not involve related transactions. Members of management have been informed and understand that they are to bring related party transactions to the Audit Committee or the Board for approval. These policies and procedures are evidenced in the Audit Committee Charter and the Code of Ethics.

**Certain Transactions**

John N. Kapoor, Ph.D., our Chairman of the Board and a principal shareholder, is the President of EJ Financial Enterprises, Inc., a health care consulting investment company (“EJ Financial”). EJ Financial is involved in the management of health care companies in various fields and Dr. Kapoor is involved in various capacities with the management and operation of these companies. The Kapoor Trust, the beneficiary and sole trustee of which is Dr. Kapoor, is a principal shareholder of each of these companies. Although these companies do not currently compete directly with us, certain companies with which EJ Financial is involved are in the pharmaceutical business. Discoveries made by, or other activities of one or more of these companies could render our products less competitive or obsolete.

On July 28, 2008, we borrowed \$5,000,000 from the Kapoor Trust, and issued a subordinated promissory note in the principal amount of \$5,000,000 (the “Subordinated Note”). The note accrues interest at a rate of 15% per year and is due and payable on July 28, 2009.

On March 31, 2009, we consented to an Assignment Agreement (“Assignment”) between General Electric Capital Corporation (“GE”) and EJ Funds LP (“EJ Funds”) which transferred to EJ Funds all of GE’s rights and obligations under our Credit

## [Table of Contents](#)

Agreement dated January 7, 2009 (the “Credit Agreement”), with GE. Pursuant to the Assignment, EJ Funds became the agent and lender under the Credit Agreement. Accordingly, GE is no longer our lender. EJ Financial is the general partner of EJ Funds.

In connection with the Assignment, on April 13, 2009, we entered into a Modification, Warrant and Investor Rights Agreement (the “Modification Agreement”) with EJ Funds that, among other things, (i) reduced the revolving loan commitment under the Credit Agreement to \$5,650,000, (ii) provided an extended cure period until July 22, 2009 for any event, other than specified types of “Material Defaults” listed in Section 2(a) of the Modification Agreement, which could constitute an Event of Default under the Credit Agreement, unless that period is terminated earlier due to the occurrence of a Material Default or as otherwise provided in the Modification Agreement, (iii) set the interest rate for all amounts outstanding under the Credit Agreement at an annual rate of 10% with interest payable quarterly, (iv) granted a security interest in and lien upon all the collateral under the Credit Agreement to the Kapoor Trust as security for the Subordinated Note, and (v) requires us, within 30 days after the date of the Modification Agreement, to enter into security documents consisting of a security agreement and mortgages (if requested by the Kapoor Trust) in form and substance substantially similar to the corresponding security documents under the Credit Agreement for the Kapoor Trust’s interest in connection with the Subordinated Note. The Modification Agreement also granted EJ Funds the right to require us to nominate two directors to serve on our Board of Directors. The Kapoor Trust is entitled to require us to nominate a third director under our Stock Purchase Agreement dated November 15, 1990 with the Kapoor Trust. In addition, we agreed to pay all accrued legal fees and other expenses of EJ Funds that relate to the Credit Agreement and other loan documents, including legal expenses incurred with respect to the Modification Agreement and the Assignment.

Pursuant to the Modification Agreement, on April 13, 2009 we granted EJ Funds a warrant (the “Modification Warrant”) to purchase 1,939,639 shares of our common stock at an exercise price of \$1.11 per share, subject to certain adjustments. The Modification Warrant expires five years after its date of issuance and is exercisable upon payment of the exercise price in cash or by means of a cashless exercise yielding a net share figure. Under the Modification Agreement, we have the right to convert the Subordinated Note into term indebtedness under the Credit Agreement in exchange for additional warrants, on terms substantially identical to the Modification Warrant, to purchase 343,299 shares of our common stock for each \$1,000,000 of converted debt. The exercise price of those warrants would also be \$1.11 per share. The estimated fair value of the Modification Warrant, using a Black-Scholes valuation model, is \$1,357,747.

On April 15, 2009, we entered into entered into a Reimbursement and Warrant Agreement (the “Reimbursement Agreement”) with EJ Funds and the Kapoor Trust, pursuant to which the Kapoor Trust agreed to provide an irrevocable standby letter of credit (“L/C”) as security for our payment obligations of \$10,500,000 to the Massachusetts Biologic Laboratories of the University of Massachusetts (“MBL”) under our Letter Agreement dated March 27, 2009 (the “Letter Agreement”) and Settlement Agreement dated April 15, 2009 (the “Settlement Agreement”) with MBL. We entered into the Letter Agreement and the Settlement Agreement to resolve a dispute involving our failure to make timely payments to MBL for Td vaccine products under our modified Exclusive Distribution Agreement dated March 22, 2007 with MBL.

The Reimbursement Agreement provides, among other things, that we will reimburse the Kapoor Trust for any draws by MBL under the L/C through the mechanism of causing the amount of the draws to become term indebtedness payable to the Kapoor Trust on the same terms as the revolving debt under the Credit Agreement. All of our obligations under the Reimbursement Agreement will also be considered secured obligations under the Credit Agreement. Pursuant to the Reimbursement Agreement, we also issued a warrant to the Kapoor Trust (the “Reimbursement Warrant”) to purchase 1,501,933 shares of our common stock at an exercise price of \$1.11 per share, subject to certain adjustments. The Reimbursement Warrant expires five years from the date of issuance and is exercisable upon payment of the exercise price in cash or by means of a cashless exercise yielding a net share figure. In addition, the Reimbursement Agreement provides that we must issue the Kapoor Trust additional warrants, at that same price of \$1.11 per share, to purchase 200,258 shares of our common stock per \$1,000,000 drawn on the L/C. The estimated fair value of the Reimbursement Warrant, using a Black-Scholes valuation model, is \$1,051,353.

The shares of our common stock issuable upon exercise of the Modification Warrant and the Reimbursement Warrant, along with those other warrants that may be issued under the Modification Agreement and Reimbursement Agreement and other shares of common stock held by EJ Funds, the Kapoor Trust and their affiliates, are subject to registration rights as set forth in the Modification Agreement. Under the Modification Agreement, we agreed to file a registration statement with the SEC within 75 days of the date of the Modification Agreement. We also agreed to continue the effectiveness of the registration statement until the earliest of the dates (i) all securities registrable thereunder have been sold, (ii) all such registrable securities may be sold in a single transaction by their holders to the public under Rule 144 under the Securities Act, and (iii) no shares of our common stock registered under the registration statement qualify as “registrable securities” thereunder.

Dr. Kapre, a member of the Board, is an Executive Director with Serum. In November 2007, we issued 1,000,000 shares of our common stock in a private placement to Serum at a price of \$7.01 per share pursuant to a Securities Purchase Agreement dated November 14, 2007 (the “Securities Purchase Agreement”) with Serum. The total price was \$7,010,000. The shares of our common stock issued under the Securities Purchase Agreement (collectively, the “Registrable Securities”) are subject to registration rights set forth in the Securities Purchase Agreement. Under the Securities Purchase Agreement, we agreed to file a registration statement (the “Registration Statement”) with the SEC by the 60th day after the closing date of the transactions contemplated by the Securities Purchase Agreement (the “Filing Date”), for purposes of registering the Registrable Securities. We agreed to maintain the effectiveness of the Registration Statement until the earlier of the date that all Registrable Securities covered by the Registration Statement have been sold or can be sold publicly under Rule 144(k) under the Securities Act (the “Effectiveness Period”). The Registration Statement was filed on December 5, 2007, and declared effective on December 17, 2007.

Pursuant to the Securities Purchase Agreement, if certain events occur, then, on every monthly anniversary until the event is cured and on the date of the cure, we are required to pay Serum, as liquidated damages, \$0.0526 for each share of our common stock purchased under the Securities Purchase Agreement and then owned by Serum. Subject to limitations set forth in the Securities Purchase Agreement, the events are: (i) our common stock is not listed or quoted, or is suspended from trading, on an eligible market for a period of five trading days during the Effectiveness Period, or (ii) the Registration Statement ceases to be effective for 20 trading days in a 365 day period. The payments relate solely to the shares of our common stock issued to Serum under the Securities Purchase Agreement and may not exceed \$525,750.

In addition, in September 2006, we issued 1,000,000 shares of our common stock in a private placement to Serum at a price of \$3.56 per share pursuant to a similar securities purchase agreement. The total price was \$3,560,000. The monthly liquidated damages under that agreement are \$0.0267 and the maximum amount of those damages is \$267,000. A registration statement for these shares was filed on November 14, 2006 and declared effective on December 7, 2006.

On November 8, 2006, we entered into both a Development and Exclusive Distribution Agreement and a Development Funding Agreement (together, the “Development Agreements”) with Serum. Under the Development Agreements, Serum agreed to appoint us as the exclusive distributor for rabies monoclonal antibody (the “Product”). In exchange for our receiving exclusive marketing and distribution rights for the Product in North, Central, and South America, we agreed to help fund development of the Product through milestone payments. These milestone payments include the successful completion of Phase I, Phase II, and Phase III clinical trials and receipt of approval for a biologics license application from the U.S. Food and Drug Administration’s Center for Biologics Evaluation and Research. As the exclusive marketing and distribution partner of Serum for the Product in America, we will receive 40% of the revenues from Product sales in North America and 50% of the revenues from Product sales in Central and South America. Also, Serum granted us a first option right to obtain exclusive marketing rights in North, Central, and South America for a second monoclonal antibody product, Anti-D human monoclonal antibody. The exclusive marketing rights for this product would be consistent with the terms in the Development Agreements for the Product. Additionally, Serum has granted us a first option right to expand the territory in which it has exclusive rights to include Europe in exchange for minimum annual product sales requirements in Europe.

In October 2004, we also entered into an exclusive drug development and distribution agreement for oncology drug products for the United States and Canada with Serum. We will own the ANDAs and buy any products developed under the agreement from Serum under a negotiated transfer price arrangement. If the products are approved, we will market and sell them in the United States and Canada under our label.

### **Independence of the Board of Directors**

Our common stock is traded on the NASDAQ Global Market (“NASDAQ”). The Board has determined that a majority of the members of the Board qualify as “independent,” as defined by the listing standards of NASDAQ. Consistent with these considerations, after review of all relevant transactions and relationships between each director, or any of his family members, and Akorn, its senior management and its independent auditors, the Board has determined further that Messrs. Ellis, Johnson, Treppel and Wall are independent under the listing standards of NASDAQ. In making this determination, the Board considered that there were no new transactions or relationships between its current independent directors and Akorn, its senior management and its independent auditors since last making this determination

**Item 14. Principal Accounting Fees and Services.**

On December 5, 2007, we terminated the services of BDO Seidman, LLP (“BDO”) as our independent registered public accounting firm, except that BDO completed the audit for the fiscal year ended December 31, 2007. The decision to dismiss BDO was recommended and approved by our Audit Committee. The audit reports of BDO on the consolidated financial statements as of December 31, 2007 and 2006 and for the years then ended contained no adverse opinion or disclaimer of opinion and were not qualified or modified as to uncertainty, audit scope or accounting principle. Also on December 5, 2007, the Audit Committee engaged Ernst & Young LLP (“E&Y”) as our independent registered public accounting firm for the fiscal year ending December 31, 2008.

**Audit Fees**

Aggregate fees, including out-of-pocket expenses, for professional services rendered by E&Y in connection with (i) the audit of our consolidated financial statements as of and for the year ended December 31, 2008, (ii) the audit of internal controls over financial reporting as required by Section 404 of the Sarbanes-Oxley Act of 2002 as of December 31, 2008, and (iii) the reviews of our condensed consolidated interim financial statements as of September 30, 2008, June 30, 2008, and March 31, 2008, all of which were included in our Form 10-Qs, were \$805,000.
