

**UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549**

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE QUARTERLY PERIOD ENDED SEPTEMBER 30, 2016

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

FOR THE TRANSITION PERIOD FROM _____ TO _____

COMMISSION FILE NUMBER: 001-32360

AKORN, INC.

(Exact Name of Registrant as Specified in its Charter)

LOUISIANA

(State or Other Jurisdiction of
Incorporation or Organization)

72-0717400

(I.R.S. Employer
Identification No.)

1925 W. Field Court, Suite 300

Lake Forest, Illinois

(Address of Principal Executive Offices)

60045

(Zip Code)

(847) 279-6100

(Registrant's telephone number, including area code)

Indicate by check mark whether the Registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 229.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act. (Check one):

Large accelerated filer Accelerated filer Non-accelerated filer Smaller reporting company
(Do not check if a smaller reporting company)

Indicate by check mark whether the Registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

At October 28, 2016, there were 125,240,731 shares of common stock, no par value, outstanding.

AKORN, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(UNAUDITED)

NOTE 1 — BUSINESS AND BASIS OF PRESENTATION

Business: Akorn, Inc., together with its wholly-owned subsidiaries (collectively “Akorn”, the “Company”, “we”, “our” or “us”) is a specialty generic pharmaceutical company that develops, manufactures and markets generic and branded prescription pharmaceuticals and branded as well as private-label over-the-counter (“OTC”) consumer health products and animal health pharmaceuticals. We are an industry leader in the development, manufacturing and marketing of specialized generic pharmaceutical products in alternative dosage forms. We specialize in difficult-to-manufacture sterile and non-sterile dosage forms including, but not limited to, ophthalmics, injectables, oral liquids, otics, topicals, inhalants and nasal sprays.

Akorn is a Louisiana corporation founded in 1971 in Abita Springs, Louisiana. In 1997, we relocated our corporate headquarters to the Chicago, Illinois area and currently maintain our principal corporate offices in Lake Forest, Illinois. We operate pharmaceutical manufacturing facilities in Decatur, Illinois; Somerset, New Jersey; Amityville, New York; Hettlingen, Switzerland; and Paonta Sahib, Himachal Pradesh, India. We also operate a central distribution warehouse in Gurnee, Illinois and additional distribution facilities in Amityville, New York and Decatur, Illinois. Our research and development (“R&D”) centers are located in Vernon Hills, Illinois; Copiague, New York; and Cranbury, New Jersey. Subsequent to the quarter ended September 30, 2016, we exited our previous R&D center in Warminster, Pennsylvania. We also have other corporate offices in Ann Arbor, Michigan and Gurgaon, Haryana, India.

During the three and nine months ended September 30, 2016 and 2015, the Company reported results for two reportable segments: Prescription Pharmaceuticals and Consumer Health. For further detail concerning our reportable segments please see Note 10 - “*Segment Information.*”

Our common shares are traded on The NASDAQ Global Select Market under the ticker symbol AKRX.

Basis of Presentation: The Company’s financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and accordingly do not include all the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments of a normal and recurring nature considered necessary for a fair presentation have been included in these financial statements. Operating results for the three and nine months ended September 30, 2016 are not necessarily indicative of the results that may be expected for the full year. For further information, refer to the consolidated financial statements and footnotes for the year ended December 31, 2015, included in the Company’s Annual Report on Form 10-K filed on May 10, 2016.

The Company has considered the accounting and disclosure of events occurring after the balance sheet date of September 30, 2016 through the filing date of this Form 10-Q.

Certain prior-period amounts have been reclassified to conform to current-period presentation including current and non-current deferred tax assets and liabilities and short-term and long-term deferred financing fee and debt disclosure on the condensed consolidated balance sheet.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Consolidation: The accompanying condensed consolidated financial statements include the accounts of Akorn, Inc. and its wholly-owned domestic and foreign subsidiaries. All inter-company transactions, balances and long-term intercompany loans or notes have been eliminated in consolidation, and the financial statements of Akom India Private Limited (“AIPL”) and Akom AG (formerly “Excelvision AG” or “Hettlingen”) have been translated from Indian Rupees to U.S. Dollars and Swiss Francs to U.S. dollars, respectively, based on the currency translation rates in effect either during the period or as of the date of consolidation, as applicable. The Company has no involvement with variable interest entities.

Use of Estimates: The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ materially from those estimates.

Significant estimates and assumptions for the Company may relate to the allowances for chargebacks, rebates and administrative fees, product returns, coupons, promotions and doubtful accounts, as well as the reserve for slow-moving and

obsolete inventories, the carrying value and lives of intangible assets, the useful lives of fixed assets, the carrying value of deferred income tax assets and liabilities, the assumptions underlying share-based compensation, accrued but unreported employee benefit costs and assumptions underlying the accounting for business combinations.

Revenue Recognition: Revenue is recognized when persuasive evidence of an arrangement exists, delivery has occurred or services have been rendered, the sales price is fixed or determinable, and collectability is reasonably assured. Revenue from product sales are recognized when title and risk of loss have passed to the customer.

Provision for estimated chargebacks, rebates and administrative fees, discounts, managed care rebates, product returns and doubtful accounts is made at the time of sale and is analyzed and adjusted, if necessary, at each balance sheet date.

Freight: The Company records amounts billed to customers for shipping and handling as revenue, and records shipping and handling expense related to product sales as cost of sales.

Cash and Cash Equivalents: The Company considers all unrestricted, highly liquid investments with maturity of three months or less when acquired, to be cash and cash equivalents.

Accounts Receivable: Trade accounts receivables are stated at their net realizable value. The nature of the Company's business involves, in the ordinary course, significant judgments and estimates relating to chargebacks, coupon redemption, product returns, rebates, discounts given to customers and allowances for doubtful accounts. Depending on the products, the customers, the specific terms of national supply contracts and the particular arrangements with the Company's wholesaler customers, certain rebates, chargebacks and other credits are recorded as deductions to the Company's trade accounts receivable.

Unless otherwise noted, the provisions and allowances for the following customer deductions are reflected in the accompanying condensed consolidated financial statements as reductions of revenues and trade accounts receivable, respectively.

Chargebacks: The Company enters into contractual agreements with certain third parties such as retailers, hospitals, group-purchasing organizations ("GPOs") and managed care organizations to sell certain products at predetermined prices. Similarly, we maintain an allowance for rebates and discounts related to billbacks, wholesaler fee for service contracts, GPO administrative fees, government programs, prompt payment and other adjustments with certain customers. Most of the parties have elected to have these contracts administered through wholesalers that buy the product from the Company and subsequently sell it to these third parties. As noted elsewhere, these wholesalers represent a significant percentage of the Company's gross sales. When a wholesaler sells products to one of these third parties that are subject to a contractual price agreement, the difference between the price paid to the Company by the wholesaler and the price under the specific contract is charged back to the Company by the wholesaler. This process typically takes no more than four to six weeks, but for some products may extend out to twelve weeks. The Company tracks sales and submitted chargebacks by product number and contract for each wholesaler. Utilizing this information, the Company estimates a chargeback percentage for each product and records an allowance as a reduction to gross sales when the Company records its sale of the products. The Company reduces the chargeback allowance when a chargeback request from a wholesaler is processed. Actual chargebacks processed by the Company can vary materially from period to period based upon actual sales volume through the wholesalers. However, the Company's provision for chargebacks is fully reserved for at the time when sales revenues are recognized.

Management obtains product inventory reports from certain wholesalers to aid in analyzing the reasonableness of the chargeback allowance and to monitor whether wholesaler inventory levels do not significantly exceed customer demand. The Company assesses the reasonableness of its chargeback allowance by applying a product chargeback percentage that is based on a combination of historical activity and future price and mix expectations to the quantities of inventory on hand at the wholesalers according to wholesaler inventory reports. In addition, the Company estimates the percentage of gross sales that were generated through direct and indirect sales channels and the percentage of contract vs. non-contract revenue in the period, as these each affect the estimated reserve calculation. In accordance with its accounting policy, the Company estimates the percentage amount of wholesaler inventory that will ultimately be sold to third parties that are subject to contractual price agreements based on a trend of such sales through wholesalers. The Company uses this percentage estimate until historical trends indicate that a revision should be made. On an ongoing basis, the Company evaluates its actual chargeback rate experience, and new trends are factored into its estimates each quarter as market conditions change.

For the three months ended September 30, 2016, the Company incurred a chargeback provision of \$347.1 million, or 44.1% of gross sales of \$787.8 million, compared to \$272.3 million, or 43.0% of gross sales of \$633.6 million in the

prior year period. We note that the dollar and percentage increase in the comparative period was the result of gross sale increases and product mix shifts to products with higher chargeback expense percentages. The Company ensures that this rate as a percentage of gross sales is reasonable through inspection of contractual obligations, review of historical trends and evaluation of recent activity. Furthermore, other events that could materially alter chargeback rates include: changes in product pricing as a result of competitive market dynamics or negotiations with customers, changes in demand for specific products due to external factors such as competitor supply position or consumer preferences, customer shifts in buying patterns from direct to indirect through wholesalers, which could either individually or in the aggregate increase or decrease the chargeback rate depending on the direction and velocity of the change(s).

To better understand the impact of changes in chargeback reserve based on circumstances that are not fully outside of the Company's control, for instance, the ratio of sales subject to chargeback to indirect sales, the Company performs a sensitivity analysis. Holding all other assumptions constant, for a 360 basis point ("BP") change in the ratio of sales subject to chargeback to indirect sales would increase by \$0.7 million or decrease by \$2.6 million if the ratio increases or decreases, respectively. Fundamentally, the BP change calculation is determined based on the 6-month trend of the average ratio of sales subject to chargeback to indirect sales. Due to the competitive generic pharmaceutical industry and our recent experience with wholesalers' strategy and shifts in contacted and non-contacted indirect sales, we believe that the 6-month trend of the average ratio of sales subject to chargeback to indirect sales provides a representative basis for sensitivity analysis. However, the average change in the ratio of sales subject to chargeback to indirect sales in the last 6 months is immaterial. Accordingly, the BP change calculation for September 2016 is based on the difference between the lowest and highest ratio of sales subject to chargeback to indirect sales during the last 6 months.

As of and for the year to date period ended September 30, 2016, the Company determined that in order to more closely align with internal analysis of associated reserves it would adjust the allowances disclosure to separately report rebates from chargebacks and rebates for both net trade accounts receivable and gross sale adjustments and to consolidate administrative and other fees with rebates for purposes of reporting of gross to net revenue reserves. All prior period information, including as of and for the three and nine months ended September 30, 2015 have been recasted to reflect this disclosure change.

Rebates, Administrative and Other Fees: The Company maintains an allowance for rebates, administrative and other fees, related to contracts and other rebate programs that it has in place with certain customers. Rebate, administrative and other fee percentages vary by product and by volume purchased by each eligible customer. The Company tracks sales by product number for each eligible customer and then applies the applicable rebate, administrative and other fee percentage, using both historical trends and actual experience to estimate its rebate, administrative fees and other allowances. The Company reduces gross sales and increases the rebate, administrative and other fees allowance by the estimated rebate, administrative and other fee amounts when the Company sells its products to eligible customers. The Company reduces these allowances when it processes a customer request for a rebate. At each balance sheet date, the Company analyzes the allowance for rebates, administrative and other fees against actual rebates processed and makes necessary adjustments as appropriate. The actual amounts processed can vary materially from period to period as discussed below.

The allowances for rebates, administrative and other fees further takes into consideration price adjustments which are credits issued to reflect increases or decreases in the invoice or contract prices of the Company's products. In the case of a price decrease, a credit may be given for product remaining in customer's inventories at the time of the price reduction. Contractual price protection results in a similar credit when the invoice or contract prices of the Company's products increase, effectively allowing customers to purchase products at previous prices for a specified period of time. Amounts recorded for estimated shelf-stock adjustments and price protections are based upon specified terms with direct customers, estimated changes in market prices, and estimates of inventory held by customers. The Company regularly monitors these and other factors and evaluates the reserve as additional information becomes available.

Similar to rebates, the reserve for administrative and other fees represent those amounts processed related to contracts and other fee programs which have been in place with certain entities, but they are settled through cash payment to these entities and accordingly are accounted for as a current liability. Otherwise, administrative and other fees operate similarly to rebates.

For the three month period ended September 30, 2016 the Company incurred a rebate, administrative and other fees provision of \$130.4 million, or 16.6% of gross sales of \$787.8 million, compared to \$83.1 million, or 13.1% of gross sales of \$633.6 million in the prior year period. We note that the dollar and percentage increase in the comparative period was the result of gross sale increases and product mix shifts to products with higher rebate, administrative and other fee expense percentages. The Company ensures that this rate as a percentage of gross sales is reasonable through inspection of contractual obligations, review of historical trends and evaluation of recent activity. Furthermore, other events that

could materially alter rebate, administrative and other fee rates include: changes in product pricing as a result of competitive market dynamics or negotiations with customers, changes in demand for specific products due to external factors such as competitor supply position or consumer preferences, customer shifts in buying patterns from direct to indirect through wholesalers, which could either individually or in the aggregate increase or decrease the rebate rate depending on the direction and velocity of the change(s).

To better understand the impact of changes in rebate, administrative and other fee reserves based on circumstances that are not fully outside of the Company's control, for instance, the ratio of sales subject to rebate, administrative and other fees to indirect sales, the Company performs a sensitivity analysis. Holding all other assumptions constant, for a 360 BP change in the ratio of sales subject to rebate, administrative and other fees to indirect sales would increase by \$0.1 million or decrease by \$0.5 million if the ratio increases or decreases, respectively. Fundamentally, the BP change calculation is determined based on the 6-month trend of the average ratio of sales subject to rebate, administrative and other fees to indirect sales. Due to the competitive generic pharmaceutical industry and our recent experience with wholesalers' strategy and shifts in contracted and non-contracted indirect sales, we believe that the 6-month trend of the average ratio of sales subject to rebate, administrative and other fees to indirect sales provides a representative basis for sensitivity analysis. However, the average change in the ratio of sales subject to rebate, administrative and other fees to indirect sales in the last 6 months is immaterial. Accordingly, the 360 BP change calculation for September 2016 is based on the difference between the lowest and highest ratio of sales subject to rebate, administrative and other fees to indirect sales during the last 6 months.

Sales Returns: Certain of the Company's products are sold with the customer having the right to return the product within specified periods. Provisions are made at the time of sale based upon historical experience. Historical factors such as one-time recall events as well as pending new developments like competitive product approvals or significant pricing movement that may impact the expected level of returns are taken into account to determine the appropriate reserve estimate at each balance sheet date. As part of the evaluation of the reserve required, the Company considers actual returns to date that are in process, the expected impact of any product recalls and the amount of wholesaler's inventory to assess the magnitude of unconsumed product that may result in sales returns to the Company in the future. The sales returns level can be impacted by factors such as overall market demand and market competition and availability for substitute products which can increase or decrease the pull through for sales of the Company's products and ultimately impact the level of sales returns.

For the three month period ended September 30, 2016, the Company incurred a return provision of \$8.0 million, or 1.0% of gross sales of \$787.8 million, compared to \$7.7 million, or 1.2% of gross sales of \$633.6 million in the prior year period. We note that the dollar increase and percentage decrease in the comparative period was the result of gross sale increases partially offset by product mix shifts to products with lower return rates. The Company ensures that this rate as a percentage of gross sales is reasonable through inspection of historical trends and evaluation of recent activity. Furthermore, other events that could materially alter return rates include: acquisitions and integration activities that consolidate dissimilar contract terms and could decrease the return rate as typically the Company purchases smaller entities with less contracting power and integrates those product sales to Akorn contracts; changes in demand driven by customer's acquisitions and integrations, loss of contract status, or consumer preference for available substitutes; and consumer demand shifts by products, which could either increase or decrease the return rate depending on the product or products specifically demanded and ultimately returned.

To better understand the impact of changes in return reserve based on certain circumstances, the Company performs a sensitivity analysis. Holding all other assumptions constant, for an average 1.25 month change in the lag from the time of sale to the time the product return is processed, this change would result in an increase of \$4.5 million or decrease of \$6.1 million of the return reserve expense if the lag increases or decreases, respectively. The average 1.25 months change in the lag from the time of sale to the time the product return is processed was determined based on the average variances of the last 3-month historical activities. Due to the change in the volume and type of products sold by the Company in the recent past, we have determined that the lag calculation represents a reasonable basis for sensitivity analysis.

Allowance for Coupons, Promotions and Co-Pay discount cards: The Company issues coupons from time to time that are redeemable against certain of our Consumer Health products. Upon release of coupons into the market, the Company records an estimate of the dollar value of coupons expected to be redeemed. This estimate is based on historical experience and is adjusted as needed based on actual redemptions. In addition to couponing, from time to time the Company authorizes various retailers to run in-store promotional sales of its products. Upon receiving confirmation that a promotion was run, the Company accrues an estimate of the dollar amount expected to be owed back to the retailer. This estimate is trued up to actual upon receipt of the invoice from the retailer. Additionally, the Company provides consumer co-pay discount cards, administered through outside agents to provide discounted products when redeemed. Upon release of the cards into the market, the Company

records an estimate of the dollar value of co-pay discounts expected to be utilized. This estimate is based on historical experience and is adjusted as needed based on actual usage.

Doubtful Accounts: Provisions for doubtful accounts, which reflect trade receivable balances owed to the Company that are believed to be uncollectible, are recorded as a component of selling, general and administrative ("SG&A") expenses. In estimating the allowance for doubtful accounts, the Company considers its historical experience with collections and write-offs, the credit quality of its customers and any recent or anticipated changes thereto, and the outstanding balances and past due amounts from its customers. Note that in the ordinary course of business, and consistent with our peers, we may from time to time offer extended payment terms to our customers as an incentive for new product launches and in other circumstances in accordance with industry practices. These extended payment terms do not represent a significant risk to the collectability of accounts receivable as of the period-end and are evaluated in accordance with *Accounting Standards Codification ("ASC") 605 - Revenue Recognition* as applicable. Accounts are considered past due when they remain uncollected beyond the due date specified in the applicable contract or on the applicable invoice, whichever is deemed to take precedence.

Advertising and Promotional Allowances to Customers: The Company routinely sells its over-the-counter Consumer Health products to major retail drug chains. From time to time, the Company may arrange for these retailers to run in-store promotional sales of the Company's products. The Company reserves an estimate of the dollar amount owed back to the retailer, recording this amount as a reduction to revenue at the later of the date on which the revenue is recognized or the date the sales incentive is offered. When the actual invoice for the sales promotion is received from the retailer, the Company adjusts its estimate accordingly. Advertising and promotional expenses paid to customers are expensed as incurred in accordance with *ASC 605-50 - Customer Payments and Incentives*.

Inventories: Inventories are stated at the lower of cost (average cost method) or market. The Company maintains an allowance for slow-moving and obsolete inventory as well as inventory where the cost is in excess of its net realizable value. For finished goods inventory, the Company estimates the amount of inventory that may not be sold prior to its expiration or is slow moving based upon review of recent sales activity and wholesaler inventory information. The Company also analyzes its raw material and component inventory for slow moving items.

The Company capitalizes inventory costs associated with its products prior to regulatory approval when, based on management judgment, future commercialization is considered probable and future economic benefit is expected to be realized. The Company assesses the regulatory approval process and where the product stands in relation to that approval process including any known constraints or impediments to approval. The Company also considers the shelf life of the product in relation to the product timeline for approval.

Intangible Assets: Intangible assets consist primarily of goodwill and in-process research and development, which are carried at initial value and subject to evaluation for impairment, and product licensing costs, trademarks and other such costs, which are capitalized and amortized on a straight-line basis over their useful lives, ranging from one year to thirty years. The Company regularly assesses its intangible assets for impairment based on several factors, including estimated fair value and anticipated cash flows. If the Company incurs additional costs to renew or extend the life of an intangible asset, such costs are added to the remaining unamortized cost of the asset, if any, and the sum is amortized over the extended remaining life of the asset.

Goodwill is tested for impairment annually or more frequently if changes in circumstances or the occurrence of events suggest that impairment may exist. The Company uses widely accepted valuation techniques to determine the fair value of its reporting units used in its annual goodwill impairment analysis. The Company's valuation is primarily based on qualitative and quantitative assessments regarding the fair value of goodwill relative to its carrying value. The Company models the fair value of the reporting unit based on projected earnings and cash flows of the reporting unit.

Property, Plant and Equipment: Property, plant and equipment is stated at cost, less accumulated depreciation. Depreciation is provided using the straight-line method in amounts considered sufficient to amortize the cost of the assets to depreciation expense over their estimated useful lives or capital lease terms. If applicable, the amortization of assets under capital leases is also included within depreciation expense.

Net Income Per Common Share: Basic net income per common share is based upon the weighted average common shares outstanding. Diluted net income per common share is based upon the weighted average number of common shares outstanding, including the dilutive effect, if any, of stock options, restricted stock and convertible securities using the treasury stock and if converted methods. Anti-dilutive shares are excluded from the computation of diluted net income per share.

Income Taxes: Income taxes are accounted for under the asset and liability method. Deferred income tax assets and liabilities are recognized for the tax effects of temporary differences between the financial reporting and tax bases of assets and liabilities, and net operating loss and other tax credit carry-forwards. These items are measured using the enacted tax rates and laws that will be in effect when the differences are expected to reverse. The Company records a valuation allowance to reduce the recognized deferred tax assets to the amount that is more likely than not to be realized and classifies all deferred balances as non-current assets or liabilities by tax jurisdiction in the condensed consolidated balance sheet.

Fair Value of Financial Instruments: The Company applies *ASC 820 - Fair Value Measurement*, which establishes a framework for measuring fair value and clarifies the definition of fair value within that framework. *ASC 820 - Fair Value Measurement* defines fair value as an exit price, which is the price that would be received for an asset or paid to transfer a liability in the Company's principal or most advantageous market in an orderly transaction between market participants on the measurement date. The fair value hierarchy established in *ASC 820 - Fair Value Measurement* generally requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. Observable inputs reflect the assumptions that market participants would use in pricing the asset or liability and are developed based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the entity's own assumptions based on market data and the entity's judgments about the assumptions that market participants would use in pricing the asset or liability, and are to be developed based on the best information available in the circumstances.

The valuation hierarchy is composed of three levels. The classification within the valuation hierarchy is based on the lowest level of input that is significant to the fair value measurement. The levels within the valuation hierarchy are described below:

- *Level 1*—Assets and liabilities with unadjusted, quoted prices listed on active market exchanges. Inputs to the fair value measurement are observable inputs, such as quoted prices in active markets for identical assets or liabilities. The carrying value of the Company's cash and cash equivalents and the portion of the value of the Nicox S.A. ("Nicox") shares which are available to be traded on the exchange are considered Level 1 assets.
- *Level 2*—Inputs to the fair value measurement are determined using prices for recently traded assets and liabilities with similar underlying terms, as well as directly or indirectly observable inputs, such as interest rates and yield curves that are observable at commonly quoted intervals. The Company has no Level 2 assets or liabilities in any of the periods presented.
- *Level 3*—Inputs to the fair value measurement are unobservable inputs, such as estimates, assumptions, and valuation techniques when little or no market data exists for the assets or liabilities. The portion of the fair valuation of the available-for-sale investment held in shares of Nicox subject to a lock-up provision is considered a Level 3 asset. The additional consideration payable as a result of prior years divestitures and other insignificant contingent amounts are considered Level 3 liabilities.

The following table summarizes the basis used to measure the fair values of the Company's financial instruments (amounts in thousands):

Description	September 30, 2016	Fair Value Measurements at Reporting Date, Using:		
		Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash and cash equivalents	\$ 174,050	\$ 174,050	\$ —	\$ —
Available-for-sale securities	1,143	1,107	—	36
Total assets	\$ 175,193	\$ 175,157	\$ —	\$ 36
Purchase consideration payable	\$ 4,987	\$ —	\$ —	\$ 4,987
Total liabilities	\$ 4,987	\$ —	\$ —	\$ 4,987

Description	December 31, 2015	Quoted Prices in Active Markets for Identical Items (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)
Cash and cash equivalents	\$ 346,266	\$ 346,266	\$ —	\$ —
Available-for-sale securities	5,941	4,843	—	1,098
Total assets	\$ 352,207	\$ 351,109	\$ —	\$ 1,098
Purchase consideration payable	\$ 4,967	\$ —	\$ —	\$ 4,967
Total liabilities	\$ 4,967	\$ —	\$ —	\$ 4,967

As of September 30, 2016, the Company was carrying available-for-sale investments in shares of Nicox. These shares of Nicox were initially valued at \$12.5 million discounted to reflect certain lockup provisions preventing immediate conversion of underlying shares received for the Company's investment in an available-for-sale security, or an \$1.7 million unrealized gain from the original costs basis of \$10.8 million. During the years ended December 31, 2015 and 2014 the Company sold \$2.6 million and \$0.6 million, respectively of the available-for-sale securities. During the three and nine months ended September 30, 2016 the Company sold \$0 and \$6.0 million, respectively of the available-for-sale securities, realizing an immaterial loss through the sales and recognized a \$0.4 million unrealized loss of the remaining investment as of September 30, 2016. The remaining \$1.1 million of securities are subject to certain lockup provisions and as such, the fair value of the investment is estimated using observable and unobservable inputs to discount for lack of marketability.

The remaining purchase consideration payable is principally comprised of amounts owed relating to various prior years divestitures, at fair value as determined based on the underlying contracts and the Company's subjective evaluation of the additional consideration obligation estimate.

Stock-Based Compensation: Stock-based compensation cost is estimated at grant date based on the fair value of the award, and the cost is recognized as expense ratably over the vesting period. The Company uses the Black-Scholes model for estimating the grant date fair value of stock options. Determining the assumptions to be used in the model is highly subjective and requires judgment. The Company uses an expected volatility that is based on the historical volatility of its common stock. The expected life assumption is based on historical employee exercise patterns and employee post-vesting termination behavior. The risk-free interest rate for the expected term of the option is based on the average market rate on U.S. Treasury securities of similar term in effect during the quarter in which the options were granted. The dividend yield reflects the Company's historical experience as well as future expectations over the expected term of the option. The Company estimates forfeitures at the time of grant and revises the estimate in subsequent periods, as necessary, if actual forfeitures differ from initial estimates.

Business Combinations: Business combinations are accounted for in accordance with *ASC 805 - Business Combinations*, using the acquisition method of accounting. The acquisition method of accounting requires an acquirer to recognize the assets acquired and the liabilities assumed at the acquisition date measured at their fair values as of that date. Fair value determinations are based on discounted cash flow analyses or other valuation techniques. In determining the fair value of the assets acquired and liabilities assumed in a material acquisition, the Company may utilize appraisals from third party valuation firms to determine fair values of some or all of the assets acquired and liabilities assumed, or may complete some or all of the valuations internally. In either case, the Company takes full responsibility for the determination of the fair value of the assets acquired and liabilities assumed. The value of goodwill reflects the excess of the fair value of the consideration conveyed to the seller over the fair value of the net assets received. Under the acquisition method of accounting, the Company will identify the acquirer and the closing date and apply applicable recognition principles and conditions.

Acquisition-related costs are expenses the Company incurs to effect a business combination. The Company accounts for acquisition-related costs as expenses in the periods in which the costs are incurred.

NOTE 3 — STOCK BASED COMPENSATION

The Company's shareholders approved the adoption of the Akom, Inc. 2014 Stock Option Plan ("the 2014 Plan") at the Company's 2014 Annual Meeting of Shareholders on May 2, 2014. The 2014 Plan reserved 7.5 million shares for issuance

upon the grant of stock options, restricted share units, or various other instruments to directors, employers and consultants. The 2014 Plan replaced the 2003 Stock Option Plan (the "2003 Plan"), which expired on November 6, 2013, although previously granted awards remain outstanding under the 2003 Plan.

The Company uses the single-award method for allocating compensation cost related to stock options to each period. The following table sets forth the components of the Company's share based compensation expense for the three and nine month periods ended September 30, 2016 and 2015 (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Stock options and employee stock purchase plan	\$ 3,410	\$ 2,231	\$ 8,349	\$ 6,898
Restricted stock units	1,426	1,110	2,933	2,573
Total stock-based compensation expense	\$ 4,836	\$ 3,341	\$ 11,282	\$ 9,471

The weighted-average assumptions used in estimating the grant date fair value of the stock options granted under the 2014 Plan during the three and nine month periods ended September 30, 2016, and 2015, respectively along with the weighted-average grant date fair values, are set forth in the table below.

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Expected volatility	49%	43%	48%	43%
Expected life (in years)	4.7	4.8	4.7	4.8
Risk-free interest rate	0.97%	1.54%	1.12%	1.54%
Dividend yield	—	—	—	—
Fair value per stock option	\$ 12.67	\$ 17.73	\$ 11.30	\$ 17.63
Forfeiture rate	8%	8%	8%	8%

The table below sets forth a summary of activity within the 2014 Plan and the 2003 Plan for the nine months ended September 30, 2016:

	Number of Options (in thousands)	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (Years)	Aggregate Intrinsic Value (in thousands) (1)
Outstanding at December 31, 2015	4,757	\$ 20.33	3.41	\$ 86,107
Granted	1,874	27.07		
Exercised	(1,729)	7.55		
Forfeited	(251)	28.75		
Outstanding at September 30, 2016	4,651	\$ 27.32	5.13	\$ 15,164
Exercisable at September 30, 2016	1,393	\$ 23.07	3.07	\$ 9,845

(1) Prior to the quarter ended September 30, 2016, the Aggregate Intrinsic Value ("AIV") amount may have included immaterial amounts of potentially anti-dilutive options whose exercise price exceeded the closing stock price. Beginning with the quarter ended September 30, 2016, we have excluded the potentially anti-dilutive options in the calculation of the AIV and recast the outstanding AIV amount at December 31, 2015 in the table above. Fluctuations in the intrinsic value of both outstanding and exercisable options may result from changes in underlying stock price and the timing and volume of option grants, exercises and forfeitures.

The aggregate intrinsic value for stock options outstanding and exercisable is defined as the difference between the market value of the Company's common stock as of the date indicated and the exercise price of the stock options. During the three and nine months ended September 30, 2016, 0.2 million and 1.7 million stock options were exercised resulting in cash payments to the Company of \$3.2 million and \$13.0 million, respectively. These option exercises generated deductible expenses of \$3.3 million and \$39.8 million. During the three and nine months ended September 30, 2015, 5,000 and 2.5 million

stock options were exercised resulting in cash payments to the Company of \$0.1 million and \$10.2 million, respectively. These option exercises generated deductible expenses of \$0.1 million and \$97.4 million, respectively.

From time to time the Company has granted restricted stock units to certain executives and members of its Board of Directors (“Directors”). During the three month period ended September 30, 2016, the Company instituted an additional, new Long-Term Incentive Plan for salaried (non-executive) employees intended to more consistently align the total compensation of salaried employees of the organization to Company results and increase the ownership mindset across the Company through the granting of stock options and restricted stock units. During the current period only restricted stock units were granted. These grants were calculated based on the average pay by employee class and vest ratably on the anniversary date of the grant over a four year period. All restricted stock units are valued at the closing market price of the Company’s common stock on the day of grant and the total value of the units are recognized as expense ratably over the vesting period of the grants.

The following is a summary of non-vested restricted stock unit activity:

	Number of Units (in thousands)	Weighted Average Per Share Grant Date Fair Value
Non-vested at December 31, 2015	253	\$ 35.31
Granted	302	\$ 29.50
Forfeited	(15)	\$ 28.59
Vested	(118)	\$ 34.95
Non-vested at September 30, 2016	422	\$ 31.49

NOTE 4 — ACCOUNTS RECEIVABLE ALLOWANCES

The nature of the Company’s business inherently involves, in the ordinary course, significant amounts and substantial volumes of transactions and estimates relating to allowances for product returns, chargebacks, rebates, doubtful accounts and discounts given to customers. This is a natural circumstance of the pharmaceutical industry and is not specific to the Company. Depending on the product, the customer, the specific terms of national supply contracts and the particular arrangements with the Company’s wholesaler customers, certain rebates, chargebacks and other credits are deducted from the Company’s accounts receivable. The process of claiming these deductions depends on wholesalers reporting to the Company the amount of deductions that were earned under the terms of the respective agreement with the customer (which in turn depends on the specific customer, each having its own pricing arrangement, which entitles it to a particular deduction). This process can lead to partial payments to the Company against outstanding invoices as the wholesalers take the claimed deductions at the time of payment.

With the exception of the provision for doubtful accounts, which is reflected as part of selling, general and administrative expense, the provisions for the following customer reserves are reflected as a reduction of revenues in the accompanying condensed consolidated statements of comprehensive income. Additionally, with the exception of administrative and other fees, which is included as a current liability, the ending reserve balances are included in trade accounts receivable, net in the Company’s condensed consolidated balance sheets.

In the quarter ended June 30, 2016, the Company determined that in order to more closely align with internal analysis of associated reserves it would adjust the allowances disclosure to separately report rebates from chargebacks and rebates for both net trade accounts receivable and gross sale adjustments and to consolidate administrative and other fees with rebates for purposes of reporting of gross to net revenue reserves. All prior period information, including as of and for the three and nine months ended September 30, 2015 have been recast to reflect this disclosure change.

Net trade accounts receivable consists of the following (in thousands):

	September 30, 2016	December 31, 2015
Gross accounts receivable	\$ 511,381	\$ 466,570
Less reserves for:		
Chargebacks	(72,129)	(91,844)
Rebates	(105,292)	(162,596)
Product returns	(56,808)	(48,333)
Discounts and allowances	(11,593)	(10,079)
Advertising and promotions	(1,345)	(1,518)
Doubtful accounts	(1,215)	(1,579)
Trade accounts receivable, net	<u>\$ 262,999</u>	<u>\$ 150,621</u>

The decrease in rebate reserves as a percentage of gross accounts receivables in the quarter ended September 30, 2016 is principally the result of the timing of the settlement of reserves against open customer deductions.

For the three and nine month periods ended September 30, 2016 and 2015, the Company recorded the following adjustments to gross sales (in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Gross sales	\$ 787,808	\$ 633,634	\$ 2,089,567	\$ 1,808,958
Less adjustments for:				
Chargebacks	(347,106)	(272,271)	(856,699)	(783,120)
Rebates, administrative and other fees	(130,429)	(83,098)	(321,718)	(258,348)
Product returns	(7,970)	(7,683)	(31,056)	(19,154)
Discounts and allowances	(15,014)	(11,744)	(40,185)	(37,410)
Advertising, promotions and others	(3,194)	(2,037)	(6,733)	(5,827)
Revenues, net	<u>\$ 284,095</u>	<u>\$ 256,801</u>	<u>\$ 833,176</u>	<u>\$ 705,099</u>

NOTE 5 — INVENTORIES, NET

The components of inventories are as follows (in thousands):

	September 30, 2016	December 31, 2015
Finished goods	\$ 75,548	\$ 76,512
Work in process	9,450	8,905
Raw materials and supplies	94,681	99,899
Inventories, net	<u>\$ 179,679</u>	<u>\$ 185,316</u>

The Company maintains reserves and records provisions for slow-moving and obsolete inventory as well as inventory with a cost in excess of its net realizable value. Inventory at September 30, 2016 and December 31, 2015 was reported net of these reserves of \$34.5 million and \$21.5 million, respectively. The increase in inventory reserves in the period was primarily due to increased reserves for slow-moving and obsolete finished goods inventory due to changing customer dynamics and product sales trends and increased raw material reserves due to individual product inventory reserves.

NOTE 6 — PROPERTY, PLANT AND EQUIPMENT, NET

Property, plant and equipment, net consist of the following (in thousands):

	September 30, 2016	December 31, 2015
Land and land improvements	\$ 17,856	\$ 17,409
Buildings and leasehold improvements	89,078	85,767
Furniture and equipment	155,216	142,885
Sub-total	262,150	246,061
Accumulated depreciation	(103,464)	(87,086)
Property, plant and equipment in service, net	\$ 158,686	\$ 158,975
Construction in progress	57,355	20,639
Property, plant and equipment, net	\$ 216,041	\$ 179,614

At September 30, 2016 and December 31, 2015, property, plant and equipment, net, with a net carrying value of \$62.0 million and \$52.6 million, respectively, was located outside the United States at the Company's manufacturing facilities in India and Switzerland. The increase in foreign property, plant and equipment and the increase in construction in progress in the period was largely the result of additional property, plant and equipment spend at our facility in India and costs capitalized to achieve compliance with the Federal Drug Supply Chain Security Act, respectively.

The Company recorded depreciation expense of \$5.6 million and \$5.1 million during the three month periods ended September 30, 2016 and 2015 and \$16.5 million and \$14.4 million during the nine month periods ended September 30, 2016 and 2015, respectively.

NOTE 7 — GOODWILL AND OTHER INTANGIBLE ASSETS, NET

Goodwill:

The following table provides a summary of the activity in goodwill by segment for the nine months ended September 30, 2016 (in thousands):

	Consumer Health	Prescription Pharmaceuticals	Total
Balances at December 31, 2015	\$ 16,717	\$ 267,993	\$ 284,710
Currency translation adjustments	—	(126)	(126)
Acquisitions	—	—	—
Impairments	—	—	—
Dispositions	—	—	—
Balances at September 30, 2016	\$ 16,717	\$ 267,867	\$ 284,584

Product Licensing Rights, In-Process Research and Development ("IPR&D"), and Other Intangible Assets:

The following table sets forth information about the net book value of the Company's other intangible assets as of September 30, 2016 and December 31, 2015, and the weighted average remaining amortization period as of September 30, 2016 and December 31, 2015 (dollar amounts in thousands):

	<u>Gross Amount</u>	<u>Accumulated Amortization</u>	<u>Reclass- ifications</u>	<u>Gross Impairment</u>	<u>Net Balance</u>	<u>Wtd Avg Remaining Amortization Period (years)</u>
September 30, 2016						
Product licensing rights	\$ 790,143	\$ (177,181)	\$ —	\$ (11,725)	\$ 601,237	10.3
IPR&D	186,932	—	—	—	186,932	N/A - Indefinite lived
Trademarks	16,000	(3,928)	—	—	12,072	18.0
Customer relationships	6,326	(3,835)	—	—	2,491	9.6

The Company recorded amortization expense of \$16.5 million and \$16.5 million during the three month periods ended September 30, 2016 and 2015, and \$49.4 million and \$49.2 million during the nine month periods ended September 30, 2016 and 2015, respectively. The Company also recognized impairment of intangible assets due to changing market dynamics in the nine month period ended September 30, 2016 of \$9.4 million related to three product licensing rights which were net of accumulated amortization at the impairment date, which represents the variance from the gross impairment figure in the table above and in the nine month period ended September 30, 2015 the Company recognized \$2.6 million of abandonment of IPR&D (which was recognized in R&D expense) associated with two IPR&D projects acquired in the VersaPharm acquisition.

NOTE 8 — FINANCING ARRANGEMENTS

Incremental Term Loan

Concurrent with the closing of its acquisition of VersaPharm, Akom, Inc. and its wholly-owned domestic subsidiaries (the “Akom Loan Parties”) entered into a \$445.0 million Incremental Facility Joinder Agreement (the “Incremental Term Loan Facility”) pursuant to a Loan Agreement (the “Incremental Term Loan Agreement”) dated August 12, 2014 between the Akom Loan Parties as borrowers, and JPMorgan Chase Bank, N.A. (“JPMorgan”), as lender and as administrative agent for certain other lenders. The proceeds received pursuant to the Incremental Term Loan Agreement were used to finance the VersaPharm acquisition.

The Incremental Term Loan Facility is secured by all of the assets of the Akom Loan Parties, including springing control of the Company’s primary deposit account pursuant to a Deposit Account Control Agreement.

The Incremental Term Loan Facility required quarterly principal repayment equal to 0.25% of the initial loan amount of \$445.0 million beginning with the first full quarter following the closing date of the Incremental Term Loan Agreement, with a final payment of the remaining principal balance due at maturity seven years from the date of closing of the Existing Term Loan Agreement or April 16, 2021. The Company may prepay all or a portion of the remaining outstanding principal amount under the Incremental Term Loan Agreement at any time, or from time to time, subject to prior notice requirement to the lenders and payment of applicable fees. Prepayment of principal will be required should the Company incur any indebtedness not permitted under the Incremental Term Loan Agreement, or effect the sale, transfer or disposition of any property or asset, other than in the ordinary course of business. On February 16, 2016 the Company made a voluntary prepayment of its Incremental Term Loan Facility of \$85.2 million which settled all future quarterly principal repayments as denoted above until the date of the closing of the Incremental Term Loan Agreement or April 16, 2021 although future voluntary principal repayments are permitted. Effected for the principal repayment, as of September 30, 2016 outstanding debt under the

Incremental Term Loan Facility was \$354.3 million and the Company was in full compliance with all applicable covenants which included customary limitations on indebtedness, distributions, liens, acquisitions, investments, and other activities.

Prior to November 13, 2015 interest accrued based, at the Company’s election, on an adjusted prime/federal funds rate (“ABR Loan”) or an adjusted LIBOR (“Eurodollar Loan”) rate, plus a margin of 2.50% for ABR Loans, and 3.50% for Eurodollar Loans. Each such margin would decrease by 0.25% in the event the Company’s senior debt to EBITDA ratio for any quarter falls to 2.25:1.00 or below. During an event of default, as defined in the Existing Term Loan Agreement, any interest rate would be increased by 2.00% per annum. Per the Existing Term Loan Agreement, the interest rate on LIBOR loans could not fall below 4.50%.

On May 20, 2015 the Company modified the Incremental Term Loan Facility with JPMorgan and certain other lenders to remedy certain covenant defaults related to the fiscal year 2014 financial statement restatement by incurring nominal charges affected through a temporary interest rate increase and an upfront payment.

On November 13, 2015 the Company again modified the Incremental Term Loan Facility with JPMorgan and certain other lenders to remedy certain remaining covenant defaults related to the fiscal year 2014 financial statement restatement by incurring additional charges affected through a temporary interest rate increase and an upfront payment. Through the May 20, 2015 and November 13, 2015 debt modifications and related amortization, unamortized deferred financing fees were \$10.7 million as of December 31, 2015. During the nine months ended September 30, 2016 the Company incurred an additional \$2.2 million of financing costs related to the 2014 restatement that ended on May 10, 2016. During the three and nine month periods ended September 30, 2016, the Company amortized \$0.5 million and \$3.9 million, respectively of the total incremental term loan costs, as compared to the \$0.4 million and \$1.3 million amortized during the three and nine month periods ended September 30, 2015, resulting in \$8.9 million of deferred financing fees remaining at September 30, 2016. The increase in amortization of deferred financing fees in the current year to date period as compared to the prior year to date period was principally the result of the deferred financing fee amortization associated with the voluntary principal repayment and increased amortization of costs due to consent modifications made during the year to date period. The Company will amortize the remaining deferred financing fees using the effective interest method over the term of the Existing Term Loan Agreement.

Subsequent to November 13, 2015, interest accrues based, at the Company’s election, on an adjusted prime/federal funds rate (“ABR Loan”) or an adjusted LIBOR (“Eurodollar Loan”) rate, plus a margin of 4.00% for ABR Loans and 5.00% for Eurodollar Loans. As of the date of the filing of this Form 10-Q until the maturity of the incremental term loan, our spread will be based upon the Ratings Level applicable on such date as documented below. As of the period ended September 30, 2016, the Company was a Ratings Level I for the Incremental Term Loan Facility.

<u>Ratings Level</u>	<u>Index Ratings</u> <u>(Moody’s/S&P)</u>	<u>Eurodollar Spread</u>	<u>ABR Spread</u>
Level I	B1/B+ or higher	4.25%	3.25%
Level II	B2/B	4.75%	3.75%
Level III	B3/B- or lower	5.50%	4.50%

For the three month periods ended September 30, 2016 and 2015, the Company recorded interest expense of \$4.8 million and \$5.0 million, respectively in relation to the Incremental Term Loan Agreement, while for the nine month periods ended September 30, 2016 and 2015, the Company recorded interest expense of \$13.7 million and \$14.9 million, respectively in relation to the Incremental Term Loan Agreement.

Existing Term Loan

Concurrent with the closing of its acquisition of Hi-Tech (the “Hi-Tech Acquisition”) Akom Loan Parties entered into a \$600.0 million Term Facility (the “Existing Term Facility”) pursuant to a Loan Agreement dated April 17, 2014 (the “Existing Term Loan Agreement”) between the Akom Loan Parties as borrowers, and certain other lenders with JPMorgan, acting as administrative agent. The Company may increase the loan amount up to an additional \$150.0 million, or more, provided certain financial covenants and other conditions are satisfied. The proceeds received pursuant to the Existing Term Loan Agreement were used to finance the Hi-Tech Acquisition.

The Existing Term Facility is secured by all of the assets of the Akom Loan Parties, including springing control of the Company’s primary deposit account pursuant to a deposit account control agreement.

The Existing Term Loan Agreement required quarterly principal repayment equal to 0.25% of the initial loan amount of \$600.0 million beginning with the second full quarter following the closing date of the Existing Term Loan Agreement, with a final payment of the remaining principal balance due at maturity seven years from the date of closing of the Existing Term Loan Agreement. The Company may prepay all or a portion of the remaining outstanding principal amount under the Existing Term Loan Agreement at any time, or from time to time, subject to prior notice to the lenders and payment of applicable fees. Prepayment of principal will be required should the Company incur any indebtedness not permitted under the Existing Term Loan Agreement, or effect the sale, transfer or disposition of any property or asset, other than in the ordinary course of business. On February 16, 2016 the Company made a voluntary prepayment of its Existing Term Loan Facility of \$114.8 million which settled all future quarterly principal repayments as denoted above until the date of the closing of the Existing Term Loan Agreement or April 16, 2021, although future voluntary principal repayments are permitted. Effected for the principal repayment, as of September 30, 2016 outstanding debt under the term Existing Term Loan facility was \$477.7 million and the Company was in full compliance with all applicable covenants which included customary limitations on indebtedness, distributions, liens, acquisitions, investments, and other activities.

Prior to November 13, 2015 interest accrued based, at the Company’s election, on an adjusted prime/federal funds rate (“ABR Loan”) or an adjusted LIBOR (“Eurodollar Loan”) rate, plus a margin of 2.50% for ABR Loans, and 3.50% for Eurodollar Loans. Each such margin would decrease by 0.25% in the event Akom’s senior debt to EBITDA ratio for any quarter falls to 2.25:1.00 or below. During an event of default, as defined in the Existing Term Loan Agreement, any interest rate would be increased by 2.00% per annum. Per the Existing Term Loan Agreement, the interest rate on LIBOR loans could not fall below 4.50%.

On May 20, 2015 the Company modified the Existing Term Loan Facility with JPMorgan and certain other lenders to remedy certain covenant defaults related to the fiscal year 2014 financial statement restatement by incurring nominal charges affected through a temporary interest rate increase and an upfront payment.

On November 13, 2015 the Company again modified the Existing Term Loan Facility with JPMorgan and certain other lenders to remedy certain remaining covenant defaults related to the fiscal year 2014 financial statement restatement by incurring additional charges affected through a temporary interest rate increase and an upfront payment. Through the May 20, 2015 and November 13, 2015 debt modifications and related amortization, unamortized deferred financing fees were \$16.1 million as of December 31, 2015. During the nine months ended September 30, 2016 the Company incurred an additional \$2.9 million of financing costs related to the 2014 restatement that ended on May 10, 2016. During the three and nine month periods ended September 30, 2016, the Company amortized \$0.7 million and \$5.2 million, respectively of the total existing term loan costs, as compared to the \$0.5 million and \$1.3 million amortized during the three and nine month periods ended September 30, 2015, resulting in \$13.8 million of existing deferred financing fees remaining at September 30, 2016. The increase in amortization of deferred financing fees in the current year to date period as compared to the prior year to date period was principally the result of the deferred financing fee amortization associated with the voluntary principal repayment and increased amortization of costs due to consent modifications made during the year to date period. The Company will amortize the remaining deferred financing fees using the effective interest method over the term of the Existing Term Loan Agreement.

Subsequent to November 13, 2015, interest accrues based, at the Company’s election, on an adjusted prime/federal funds rate (“ABR Loan”) or an adjusted LIBOR (“Eurodollar Loan”) rate, plus a margin of 4.00% for ABR Loans and 5.00% for Eurodollar Loans. As of the date of the filing of this Form 10-Q until the maturity of the existing term loan, our spread will be based upon the Ratings Level applicable on such date as documented below. As of the period ended September 30, 2016, the Company was a Ratings Level I for the Existing Term Loan Facility.

<u>Ratings Level</u>	<u>Index Ratings</u> <u>(Moody’s/S&P)</u>	<u>Eurodollar Spread</u>	<u>ABR Spread</u>
Level I	B1/B+ or higher	4.25%	3.25%
Level II	B2/B	4.75%	3.75%
Level III	B3/B- or lower	5.50%	4.50%

For the three month periods ended September 30, 2016 and 2015, the Company recorded interest expense of \$6.4 million and \$6.8 million, respectively in relation to the Existing Term Loan, while for the nine month periods ended September 30, 2016 and 2015, the Company recorded interest expense of \$18.5 million and \$20.5 million, respectively in relation to the Existing Term Loan.

JPMorgan Credit Facility

On April 17, 2014, the Akom Loan Parties entered into a Credit Agreement (the “JPM Credit Agreement”) with JPMorgan as administrative agent, and Bank of America, N.A., as syndication agent for certain other lenders (at closing, Bank of America, N.A. and Wells Fargo Bank, N. A.) for a \$150.0 million revolving credit facility (the “JPM Revolving Facility”).

Subject to other conditions in the JPM Credit Agreement, advances under the JPM Revolving Facility will be made in accordance with a borrowing base consisting of the sum of the following:

- (a) 85% of eligible accounts receivable;
- (b) The lesser of:
 - a. 65% of the lower of cost or market value of eligible raw materials and work in process inventory, valued on a first in first out basis, and
 - b. 85% of the orderly liquidation value of eligible raw materials and work in process inventory, valued on a first in first out basis;
- (c) The lesser of:
 - a. 75% of the lower of cost or market value of eligible finished goods inventory, valued on a first in first out basis, and
 - b. 85% of the orderly liquidation value of eligible finished goods inventory, valued on a first in first out basis up to 85% of the liquidation value of eligible inventory (or 75% of market value finished goods inventory); and
- (d) Less any reserves deemed necessary by the administrative agent, and allowed in its permitted discretion.

The total amount available under the JPM Revolving Facility includes a \$10.0 million letter of credit facility.

Under the terms of the JPM Credit Agreement, if availability under the JPM Revolving Facility falls below 12.5% of commitments or \$15.0 million for more than 30 consecutive days, the Company may be subject to cash dominion, additional reporting requirements, and additional covenants and restrictions. The Company may seek additional commitments to increase the maximum amount of the JPM Revolving Facility to \$200.0 million.

Unless cash dominion is exercised by the lenders in connection with the JPM Revolving Facility, the Company will be required to repay the JPM Revolving Facility upon its expiration five years from issuance, subject to permitted extension, and will pay interest on the outstanding balance monthly based, at the Company’s election, on an adjusted prime/federal funds rate (“ABR”) or an adjusted LIBOR (“Eurodollar”), plus a margin determined in accordance with the Company’s consolidated fixed charge coverage ratio (EBITDA to fixed charges) as follows:

Fixed Charge Coverage Ratio	Revolver ABR Spread	Revolver Eurodollar Spread
<u>Category 1</u> > 1.50 to 1.0	0.50%	1.50%
<u>Category 2</u> > 1.25 to 1.00 but < 1.50 to 1.00	0.75%	1.75%
<u>Category 3</u> < 1.25 to 1.00	1.00%	2.00%

In addition to interest on borrowings, the Company will pay an unused line fee of 0.25% per annum on the unused portion of the JPM Revolving Facility.

During an event of default, as defined in the JPM Credit Agreement, any interest rate will be increased by 2.00% per annum.

The JPM Revolving Facility is secured by all of the assets of the Akom Loan Parties, including springing control of the Company’s primary deposit account pursuant to a Deposit Account Control Agreement. The financial covenants require the Akom Loan Parties to maintain the following on a consolidated basis:

- (a) Minimum Liquidity, as defined in the JPM Credit Agreement, of not less than (a) \$120.0 million plus (b) 25% of the JPM Revolving Facility commitments during the three month period preceding the June 1, 2016 maturity date of the Company’s senior convertible notes.

(b) Ratio of EBITDA to fixed charges of no less than 1.00 to 1.00 (measured quarterly for the trailing 4 quarters).

As of September 30, 2016 the Company was in full compliance with all covenants applicable to the JPM Revolving Facility.

The Company may use any proceeds from borrowings under the JPM Revolving Facility for working capital needs and for the general corporate purposes of the Company and its subsidiaries. At September 30, 2016, there were no outstanding borrowings and one outstanding letter of credit in the amount of \$2.2 million under the JPM Revolving Facility. Availability under the facility as of September 30, 2016 was \$147.8 million.

The JPM Credit Agreement places customary limitations on indebtedness, distributions, liens, acquisitions, investments, and other activities of the Akorn Loan Parties in a manner designed to protect the collateral while providing flexibility for growth and the historic business activities of the Company and its subsidiaries.

Convertible Notes

On June 1, 2011, the Company issued \$120.0 million aggregate principal amount of 3.50% Convertible Senior Notes due 2016 (the “Notes”) which included \$20.0 million in aggregate principal amount of the Notes issued in connection with the full exercise by the initial purchasers of their over-allotment option. The Notes were governed by the Company’s indenture with Wells Fargo Bank, National Association, as trustee (the “Indenture”). The Notes were offered and sold only to qualified institutional buyers. The net proceeds from the sale of the Notes were \$115.3 million, after deducting underwriting fees and other related expenses.

The Notes had a maturity date of June 1, 2016 and paid interest at an annual rate of 3.50% semiannually in arrears on June 1 and December 1 of each year, with the first interest payment completed on December 1, 2011. The Notes were convertible into shares of the Company’s common stock, cash or a combination thereof at an initial conversion price of \$8.76 per share, which was equivalent to an initial conversion rate of 114.1553 shares per \$1,000 principal amount of Notes, subject to adjustment for certain events described in the Indenture.

The Notes became convertible effective April 1, 2012 as a result of the Company’s common stock closing above the required price of \$11.39 per share for 20 of the last 30 consecutive trading days in the quarter ended March 31, 2012. The Notes remained convertible for each successive quarter, up to and including the maturity date of June 1, 2016, as a result of meeting the trading price requirement at the end of each prior quarter. During the years ended December 31, 2015 and 2014, \$44.3 million and \$32.5 million of this convertible debt was converted at the holder’s request which resulted in recognition of losses of \$1.2 million and \$1.0 million, due to the conversions, respectively. In the three month period ended June 30, 2016, the remaining \$43.2 million of debt was converted at the holder’s request, resulting in complete conversion of the Notes.

As a result of the complete conversion in the second quarter of 2016, the Company recorded the following expenses in relation to the Notes for the three and nine months ended September 30, 2016 and 2015:

<i>(In thousands)</i>	Three Months Ended		Nine Months Ended	
	September 30,		September 30,	
Expense Description	2016	2015	2016	2015
Interest expense at 3.5% coupon rate (1)	\$ —	\$ 391	\$ 687	\$ 1,795
Debt discount amortization	—	445	750	1,975
Amortization of deferred financing costs	—	80	136	357
Loss on Conversion	—	23	—	1,221
	<u>\$ —</u>	<u>\$ 939</u>	<u>\$ 1,573</u>	<u>\$ 5,348</u>

(1) As a result of the restatement of the 2014 financial data and the resultant delays in filings of the 2015 financial statements the Company was required to remit an additional 0.5% interest penalty to all holders of the convertible notes from January 1, 2016 to April 5, 2016 and a lump sum payment equal to 0.25% of the principal balance held by consenting holders of the convertible notes as of April 6, 2016.

Aggregate cumulative maturities of long-term obligations (including the incremental and existing term loans and the JPM revolver) as of September 30, 2016 are:

<i>(In thousands)</i>	2016	2017	2018	2019	Thereafter
Maturities of debt	\$ —	\$ —	\$ —	\$ —	\$ 831,938

NOTE 9 — EARNINGS PER SHARE

Basic net income per common share is based upon the weighted average number of common shares outstanding during the period. Diluted net income per common share is based upon the weighted average number of common shares outstanding, including the dilutive effect, if any, of potentially dilutive securities using the treasury stock method.

Previously, diluted net income per share assumed the principal amount of the Convertible Notes would be cash settled and any conversion spread would be settled using common shares, as the Company has the choice of settling either in cash or shares. The Company had demonstrated a past practice and intent of cash settlement for the principal and stock settlement of the conversion spread. As a result, earnings per share calculations for periods ended prior to and including September 30, 2014 only included the assumption of conversion to common shares for the convertible spread. During the quarter ended December 31, 2014, the Company changed its practice of cash settlement and settled redemptions using common shares for both the principal and conversion spread and accordingly, earnings per share amounts were calculated using the if-converted method. For the nine month periods ended September 30, 2016 and for the three and nine month periods ended September 30, 2015, the earnings per share amounts were calculated using the if-converted method.

The Company's potentially dilutive shares consist of: (i) vested and unvested stock options that have a strike price less than the market price as of September 30, 2016, (ii) unvested RSUs, and (iii) weighted-average shares potentially issuable upon conversion of the Notes that matured on June 1, 2016.

A reconciliation of the earnings per share data from a basic to a fully diluted basis is detailed below (amounts in thousands, except per share data):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Net income	\$ 47,909	\$ 47,967	\$ 151,788	\$ 118,013
Convertible debt income adjustments, net of tax	—	580	1,047	2,614
Net income adjusted for convertible debt as used for diluted earnings per share	\$ 47,909	\$ 48,547	\$ 152,835	\$ 120,627
Net income per share:				
Basic	\$ 0.38	\$ 0.40	\$ 1.24	\$ 1.02
Diluted (1)	\$ 0.38	\$ 0.39	\$ 1.21	\$ 0.96
Shares used in computing net income per share:				
Weighted average basic shares outstanding	125,855	119,260	122,232	116,162
Dilutive securities:				
Stock option and unvested RSUs	479	1,529	1,137	1,761
Shares issuable upon conversion of the notes	—	5,102	2,696	7,815
Total dilutive securities	479	6,631	3,833	9,576
Weighted average diluted shares outstanding	126,334	125,891	126,065	125,738
Shares subject to stock options omitted from the calculation of income per share as their effect would have been anti-dilutive	3,345	973	3,079	809

(1) As a result of the Company's expectation that it would likely settle all future note conversions in shares of the Company's common stock, the diluted income from continuing operations per share calculation for the periods prior to

the complete conversion of the convertible debt on June 1, 2016, included the dilutive effect of convertible debt and was offset by the exclusion of interest expense and deferred financing fees related to the convertible debt of \$0.6 million, after-tax for the three month period ended September 30, 2015 and the exclusion of \$1.0 million and \$2.6 million, after-tax for the nine month periods ended September 30, 2016 and 2015, respectively.

NOTE 10 — SEGMENT INFORMATION

During the three and nine month periods ended September 30, 2016 and 2015, respectively, the Company reported results for the following two reportable segments:

- Prescription Pharmaceuticals
- Consumer Health

The Company's Prescription Pharmaceutical segment principally consists of generic and branded prescription pharmaceuticals products which span a broad range of indications as well as a variety of dosage forms including: sterile ophthalmics, injectables and inhalants, and non-sterile oral liquids, topicals and nasal sprays. The Company's Consumer Health segment principally consists of animal health and OTC products, both branded and private label. OTC products include, but are not limited to, a suite of products for the treatment of dry eye sold under the TheraTears® brand name.

Financial information about the Company's reportable segments is based upon internal financial reports that aggregate certain operating information. The Company's Chief Operating Decision Maker ("CODM"), as defined in *ASC 280 - Segment Reporting*, who is also the CEO, oversees operational assessments and resource allocations based upon the results of the Company's reportable segments, which have available and discrete financial information.

Selected financial information by reportable segment is presented below (in thousands).

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Revenues, net:				
Prescription Pharmaceuticals	\$ 268,880	\$ 240,995	\$ 784,644	\$ 657,611
Consumer Health	15,215	15,806	48,532	47,488
Total revenues, net	284,095	256,801	833,176	705,099
Gross Profit:				
Prescription Pharmaceuticals	163,300	155,242	482,427	397,330
Consumer Health	6,927	7,770	22,590	24,252
Total gross profit	170,227	163,012	505,017	421,582
Operating expenses	83,399	72,245	238,242	191,446
Operating income	86,828	90,767	266,775	230,136
Other expense	(11,614)	(16,752)	(44,714)	(47,435)
Income before income taxes	\$ 75,214	\$ 74,015	\$ 222,061	\$ 182,701

The Company manages its business segments to the gross profit level and manages its operating and other costs on a company-wide basis. Inter-segment activity at the gross profit level is minimal. The Company does not have discrete assets by segment, as certain manufacturing and warehouse facilities support more than one segment, and therefore does not report assets by segment. Financial information including revenues and gross profit from external customers by product or product line are not provided as to do so would be impracticable.

NOTE 11 — BUSINESS COMBINATIONS AND OTHER STRATEGIC INVESTMENTS

Akorn AG (formerly Excelvision AG)

On July 22, 2014, Akorn International S.à r.l., entered into a share purchase agreement with Fareva SA, a private company headquartered in France to acquire all of the issued and outstanding shares of capital stock of its wholly-owned subsidiary, Excelvision AG for 21.7 million CHF (“Swiss Francs”), net of certain working capital and inventory amounts, Excelvision AG was a contract manufacturer located in Hettlingen, Switzerland specializing in ophthalmic products.

On January 2, 2015, the Company completed the aforementioned acquisition of all of the outstanding shares of capital stock of Excelvision AG for \$28.4 million U.S. dollars (“USD”) funded through available cash on hand. The Company’s acquisition of Excelvision AG is being accounted for as a business combination in accordance with *ASC 805 - Business Combinations*. The purpose of the acquisition was to expand the Company’s manufacturing capacity. On April 1, 2016 the name of Excelvision AG was changed to Akorn AG.

During the nine months period ended September 30, 2016, the Company recorded no acquisition-related expenses in connection with the Akorn AG Acquisition, while during the nine month periods ended September 30, 2015, the Company recorded \$0.2 million in acquisition-related expenses in connection with the Akorn AG Acquisition. These expenses principally consisted of various legal fees and other acquisition costs which have been recorded within “acquisition related costs” as part of operating expenses in the Company’s condensed consolidated statement of comprehensive income.

The following table sets forth the consideration paid for the Akorn AG Acquisition and the fair values of the acquired assets and assumed liabilities (in millions of USD) as of the acquisition date adjusted in accordance with GAAP. The figures below may differ from historical financial results of Akorn AG.

Consideration:

Amount of cash paid	\$	25.9
Outstanding amount payable to Fareva		2.5
Total consideration at closing	\$	28.4

Recognized amounts of identifiable assets acquired:

Cash and cash equivalents	\$	1.2
Accounts receivable		3.4
Inventory		4.2
Other current assets		0.9
Property and equipment		26.6
Total assets acquired		36.3
Assumed current liabilities		(1.7)
Assumed non-current liabilities		(3.9)
Deferred tax liabilities		(1.4)
Total liabilities assumed		(7.0)
Bargain purchase gain		(0.9)
Fair value of assets acquired	\$	28.4

Through its acquisition of Excelvision AG the Company recognized a bargain purchase gain of \$0.9 million which was largely derived from the difference between the fair value and the book value of the property and equipment acquired through the acquisition. This bargain purchase gain has been recognized within net income for the nine month period ended September 30, 2015.

During the three month periods ended September 30, 2016 and 2015, the Company recorded net revenue of approximately \$2.5 million and \$6.4 million related to external customer sales from the Akorn AG, while for the nine month periods ended September 30, 2016 and 2015, the Company recorded net revenue of approximately \$13.1 million and \$21.7 million, respectively related to external customer sales from the Akorn AG location subsequent to acquisition.

Other Strategic Investments

On August 1, 2011, the Company entered into a Series A-2 Preferred Stock Purchase Agreement to acquire a minority ownership interest in Acix Therapeutics Inc. (“Acix”), a private ophthalmic development pharmaceutical company based in Westborough, MA, for \$8.0 million in cash. Subsequently, on September 30, 2011, the Company entered into Amendment No. 1 to Series A-2 Preferred Stock Purchase Agreement to acquire additional shares of Series A-2 Preferred Stock in Acix for \$2.0 million in cash. On April 17, 2014, the Company entered into a Secured Note and Warrant Purchase Agreement to acquire secured, convertible promissory notes of Acix for \$0.4 million in cash. On June 27, 2014, the Company entered into a second Secured Note and Warrant Purchase Agreement to acquire additional secured, convertible promissory notes of Acix for an additional amount of \$0.4 million. The Company’s aggregate investment in Acix was \$10.8 million at cost. Acix was an ophthalmic drug development company focused on developing novel therapeutics to treat ocular diseases. Acix’s pipeline consists of both clinical stage assets and pre-Investigational new drug stage assets. The investments detailed above provided the Company with an ownership interest in Acix of below 20%. The Acix Agreement and Acix Amendment contain certain customary rights and preferences over the common stock of Acix and further provide that the Company shall have the right to a seat on the Acix board of directors.

On July 2, 2014, Nicox S.A., (“Nicox”) an international company, entered into an arrangement to acquire all of the outstanding equity of Acix (the “Acix Acquisition”).

On October 22, 2014, Nicox shareholders voted at the Nicox General Meeting to approve the Acix Acquisition. The transaction was consummated on October 24, 2014, following the completion of certain legal conditions and formalities. As consideration for its carried investment in Acix, the Company received from the Acix Acquisition pro-rata shares of Nicox which are publicly traded on the Euronext Paris exchange. Through the closing the Company received 4.3 million shares of Nicox which were subject to certain lockup provisions preventing immediate sale of underlying shares received.

Through the years ended December 31, 2015 and 2014, the Company sold 1.1 million and 0.2 million unrestricted shares for \$2.6 million and \$0.6 million, realizing a loss of \$0.2 million and an immaterial gain on the sale of shares, respectively. During the three and nine months ended September 30, 2016 the Company sold \$0 and \$6.0 million, respectively of the available-for-sale securities, realizing an immaterial loss.

In accordance with *ASC 820 - Fair Value Measurement*, the Company records unrealized holding gains and losses on available-for-sale securities in the “Accumulated other comprehensive income” caption in the condensed consolidated Balance Sheet. As of September 30, 2016, the Company recognized an unrealized holding loss of \$0.4 million as calculated based on the discounted value of the investment given the contractual lockup provisions. The Company has determined that all of the \$1.1 million of unrealized fair value associated with the investment is available to be converted to cash within one year from the balance sheet date and has been classified as a current asset.

Other Individually Insignificant Product Acquisitions

During the three months ended September 30, 2016 and 2015, the Company paid \$0.5 million and \$2.3 million, respectively, while during the nine months ended September 30, 2016 and 2015, the Company paid \$3.9 million and \$3.1 million, respectively, for the acquisition of drug product licensing rights (New Drug, Abbreviated New Drug and Abbreviated New Animal Drug Application rights) which were not individually significant. No assets were acquired other than the drug rights, and no liabilities were assumed.

NOTE 12 — COMMITMENTS AND CONTINGENCIES

The Company is subject to certain due-course complaints and claims arising out of its business, typically brought by competitors, suppliers, customers and others. In accordance with *ASC 450 - Contingencies*, the Company records reserves when loss is probable and the amount of loss can be reasonably estimated. As such, the Company believes that it has provided adequate reserves and that any matters currently pending will not materially affect the condensed, consolidated financials of the Company as of the period end.

The Company has entered into strategic business agreements for the development and marketing of finished dosage form pharmaceutical products with various pharmaceutical development companies.

Each strategic business agreement includes a future payment schedule for contingent milestone payments and in certain strategic business agreements, minimum royalty payments. The Company will be responsible for contingent milestone payments and minimum royalty payments to these strategic business partners based upon the occurrence of future events. Each strategic business agreement defines the triggering event of its future payment schedule, such as meeting product development progress timelines, successful product testing and validation, successful clinical studies, various FDA and other regulatory

approvals and other factors as negotiated. None of the contingent milestone payments or minimum royalty payments are individually material to the Company.

The Company is engaged in various supply agreements with third parties which obligate the Company to purchase various API or finished products at contractual minimum levels. None of these agreements are individually or in aggregate material to the Company. Further, the Company does not believe at this time that any of the purchase obligations represent levels above that of normal business demands.

The table below summarizes contingent potential milestone payments due to strategic partners in the years 2016 and beyond, assuming all such contingencies occur (in thousands):

Year ending December 31,		Amount
2016	\$	2,590
2017		7,438
2018		3,781
2019 and Beyond		—
Total	\$	13,809

Legal Proceedings

The Company is a party to legal proceedings and potential claims arising in the ordinary course of our business. The amount, if any, of ultimate liability with respect to such matters cannot be determined, but despite the inherent uncertainties of litigation, management of the Company believes that the ultimate disposition of such proceedings and exposure will not have a material adverse impact on the financial condition, results of operations, or cash flows of the Company. Set forth below is a listing of potentially material legal proceedings of the Company in existence as of the date of filing this Quarterly Report on Form 10-Q.

Shareholder and Derivative Litigation. On March 4, 2015, a purported class action complaint was filed entitled *Yeung v. Akorn, Inc., et al.*, in the federal district court of Northern District of Illinois, No. 15-cv-1944. The complaint alleged that the Company and three of its officers violated the federal securities laws in connection with matters related to its accounting and financial reporting in the wake of its acquisitions of Hi-Tech Pharmacal Co., Inc. and VersaPharm, Inc. A second, related case entitled *Sarzynski v. Akorn, Inc., et al.*, No. 15-cv-3921, was filed on May 4, 2015 making similar allegations. On August 24, 2015, the two cases were consolidated and a lead plaintiff group appointed in *In re Akorn, Inc. Securities Litigation*. On July 6, 2016, the lead plaintiff group filed a consolidated amended complaint making similar allegations against the Company and an officer and former officer of the Company. The consolidated amended complaint seeks damages on behalf of the putative class. On August 9, 2016, the defendants filed a motion to dismiss the case.

The Company's Board of Directors also received shareholder demand letters and four shareholder derivative lawsuits have been filed alleging breaches of fiduciary duty and other claims in connection with the Company's accounting for its acquisition and restatement of its financials. The demands request that legal action be taken against certain of the Company's directors and officers or former officers and other actions. The Company's Board of Directors formed a special committee to conduct an inquiry into the demand allegations and to provide its conclusions and recommendations to the Board. The Board has completed that process and concluded that it would not be in the best interest of the Company to pursue such claims.

Two of the derivative lawsuits, *Safriet v. Rai, et al.*, No. 15-cv-7275, and *Glaubach v. Kapoor, et al.*, No. 15-cv-11129, were filed in the Northern District of Illinois. These cases have been stayed pending anticipated rulings on the defendants' motion to dismiss in *In re Akorn, Inc. Securities Litigation*. A third lawsuit, *Kogut v. Akorn, Inc., et al.*, No. 646174, was filed in Louisiana state court in the Nineteenth Judicial Circuit Court, Parish of East Baton Rouge, on March 8, 2016. On September 23, 2016, the Company filed a motion to dismiss the case. A fourth lawsuit, *Miller v. Rai, et al.*, No. 16 CH 1363, was filed on September 8, 2016 in Illinois state court in the Circuit Court of Lake County. On October 17, 2016, defendants filed a motion to dismiss the case.

Fera Pharmaceuticals, LLC v. Akorn Inc., Sean Brynjelsen, and Michael Stehn, in the United States District Court for the Southern District of New York, Case No. 12-cv-07692-LLS. Fera Pharmaceuticals, LLC ("Fera") filed this action on September 12, 2012. The defendants in the case are the Company and two of its employees, Sean Brynjelsen and Michael Stehn. The amended complaint generally alleges that the Company breached certain terms of a contract manufacturing supply agreement by, among other things, failing to manufacture Fera's products, raising the manufacturing cost, and impermissibly

terminating the contract. In addition, Fera alleges that the Company misappropriated Fera's trade secrets in order to manufacture Erythromycin and Bacitracin for its own benefit. The counts in the amended complaint are for (1) breach of contract, (2) misappropriation of trade secrets, (3) fraudulent inducement, and (4) declaratory and injunctive relief. Fera seeks \$135 million in compensatory damages, an additional, unspecified amount in punitive damages, and injunctive relief restraining the Company from selling the products at issue in the case. The Company filed a counterclaim against Fera and certain affiliates, as well as Perrigo Company of Tennessee and Perrigo Company plc, asserting violations of Sections 1 and 2 of the Sherman Act and tortious interference with business relations. The case is still in the discovery phase, and no trial date has been scheduled. The Company disputes Fera's allegations and intends to vigorously contest them.

State of Louisiana v. Abbott Laboratories, Inc., et al., On behalf of the State of Louisiana, the Louisiana Attorney General filed suit, Number 624,522, Nineteenth Judicial District Court, Parish of East Baton Rouge, against 54 separate defendants, including Hi-Tech Pharnacal in Louisiana state court. Louisiana's complaint alleges that the defendants violated various Louisiana statutes and state common laws in connection with Medicaid reimbursement for certain vitamins, dietary supplements, and other drug products that were allegedly ineligible for reimbursement. The defendants filed exceptions of no cause of action and no right of action in response to Louisiana's amended complaint. In a judgment entered on October 2, 2015, the trial court sustained the defendants' exception of no right of action, which dismissed all of Louisiana's claims. Louisiana sought appellate review of the court's decision by filing an appeal and corresponding application for supervisory writs in the First Circuit Court of Appeal in Louisiana. On October 21, 2016, the First Circuit Court of Appeal affirmed in part and reversed in part the trial court's decision, finding that the State could not pursue the four common law claims included in the State's complaint but that the State could pursue the two statutory claims included in the complaint. The defendants may seek to appeal the aspect of the First Circuit's decision reversing the trial court's decision by filing an application for supervisory writs with the Louisiana Supreme Court. The Company disputes the allegations and intends to vigorously contest the matter.

Former Hi-Tech director and employee Reuben Seltzer delivered to the Company a demand letter in August 2014 alleging that the Company breached his employment agreement and improperly terminated Mr. Seltzer's employment. Mr. Seltzer further alleges that he is entitled to compensation in the approximate amount of \$5.2 million. The Company disputes these claims and intends to vigorously defend these allegations.

Other Matters

The Chicago Regional Office of the SEC is conducting an investigation regarding the previously disclosed financial statement restatement, internal control weaknesses and other related matters. Additionally, the United States Attorney's Office for the Southern District of New York ("USAO") has requested information regarding these matters. Akom has been furnishing requested information and is fully cooperating with the SEC and USAO.

The legal matters discussed above could result in losses, including damages, fines and civil penalties, and criminal charges, which could be substantial. We record accruals for these contingencies to the extent that we conclude that a loss is both probable and reasonably estimable. As of the date of this filing, although the Company has determined that liabilities associated with these legal matters are reasonably possible, they cannot be reasonably estimated. Given the nature of the litigation and investigations discussed above and the complexities involved, the Company is unable to reasonably estimate a possible loss for such matters until the Company knows, among other factors, (i) what claims, if any, will survive dispositive motion practice, (ii) the extent of the claims, including the size of any potential class, particularly when damages are not specified or are indeterminate, (iii) how the discovery process will affect the litigation, (iv) the settlement posture of the other parties to the litigation and (v) any other factors that may have a material effect on the litigation or investigation. However, we could incur judgments, enter into settlements or revise our expectations regarding the outcome of certain matters, and such developments could have a material adverse effect on our results of operations in the period in which the amounts are accrued and/or our cash flows in the period in which the amounts are paid.

NOTE 13 — CUSTOMER AND SUPPLIER CONCENTRATION

Customer Concentrations

A significant percentage of the Company's sales are to three wholesale drug distributors: AmerisourceBergen Corporation; Cardinal Health, Inc. and McKesson Corporation. These three wholesalers (the "Big 3 Wholesalers") are all distributors of the Company's products, as well as suppliers of a broad range of health care products.

The following table sets forth the percentage of the Company's gross and net sales for the three and nine month periods ended September 30, 2016 and 2015, and gross accounts receivable as of September 30, 2016 and December 31, 2015, attributable to the Big 3 Wholesalers:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
<i>Big 3 Wholesalers combined:</i>				
Percentage of gross sales	77%	76%	77%	78%
Percentage of net sales revenues	75%	66%	71%	69%
			September 30, 2016	December 31, 2015
Percentage of gross trade accounts receivable			83%	83%

If sales to any of the Big 3 Wholesalers were to diminish or cease, the Company believes that the end users of its products would have little difficulty obtaining the Company's products either directly from the Company or from another distributor.

No other customers accounted for more than 10% of gross sales, net revenues or gross trade receivables for the indicated dates and periods.

Supplier Concentrations

The Company requires a supply of quality raw materials and components to manufacture and package pharmaceutical products for its own use and for third parties with which it has contracted. The principal components of the Company's products are active and inactive pharmaceutical ingredients and certain packaging materials. Certain of these ingredients and components are available from only a single source and, in the case of certain of the Company's abbreviated new drug applications and new drug applications, only one supplier of raw materials has been identified. Because FDA approval of drugs requires manufacturers to specify their proposed suppliers of active ingredients and certain packaging materials in their applications, FDA approval of any new supplier would be required if active ingredients or such packaging materials were no longer available from the specified supplier. The qualification of a new supplier could delay the Company's development and marketing efforts. In addition, certain of the pharmaceutical products marketed by the Company are manufactured by a partnered third party manufacturer, which serves as the Company's sole source of that finished product. If for any reason the Company is unable to obtain sufficient quantities of any of the raw materials or components required to produce and package its products, it may not be able to manufacture its products as planned, which could have a material adverse effect on the Company's business, financial condition and results of operations. Likewise, if the Company's manufacturing partners experience any similar difficulties in obtaining raw materials or in manufacturing the finished product, the Company's results of operations would be negatively impacted.

No individual supplier represented 10% or more of the Company's purchases in any of the three and nine month periods ended September 30, 2016 or 2015.

Product Concentrations

In the three and nine month periods ended September 30, 2016, one unapproved Prescription Pharmaceutical product represented approximately 23% and 21% of the Company's total net sales revenue, respectively. Comparatively, in the three and nine month periods ended September 30, 2015, none of the Company's products represented greater than 10% of the Company's total net sales revenue. The Company attempts to minimize the risk associated with product concentrations by continuing to acquire and develop new products to add to its existing portfolio.

NOTE 14 — INCOME TAXES

The following table sets forth information about the Company's income tax provision for the periods indicated (dollar amounts in thousands):

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2016	2015	2016	2015
Income before income taxes	\$ 75,214	\$ 74,015	\$ 222,061	\$ 182,701
Income tax provision	27,305	26,048	70,273	64,688
Net income	\$ 47,909	\$ 47,967	\$ 151,788	\$ 118,013
Income tax provision as a percentage of income before income taxes	36.3%	35.2%	31.6%	35.4%

During the three month periods ended September 30, 2016 and 2015, the Company recorded an income tax provision of \$27.3 million and \$26.0 million, or 36.3% and 35.2% of income before income tax, respectively, while during the nine month periods ended September 30, 2016 and 2015, the Company recorded an income tax provision of \$70.3 million and \$64.7 million, or 31.6% and 35.4% of income before income tax in the applicable periods, respectively. The decline in the income tax provision rate as a percentage of income before income tax in the year to date period ended September 30, 2016 was principally the result of the adoption of *ASU 2016-09 - Compensation - Stock Compensation* in the period, which resulted in the recognition of reduced income tax expense resulting from the stock option exercises in the period.

As of September 30, 2016, the Company could not conclude that it was more likely than not that tax benefits from certain foreign net operating losses would be realized. Accordingly, as of the nine months ended September 30, 2016, the Company increased its valuation allowance to \$11.2 million for certain of the losses at its Indian subsidiary and the entire amount of the loss at its Swiss subsidiary, compared to a valuation allowance of \$8.8 million as of December 31, 2015.

In accordance with ASC 740-10-25, *Income Taxes - Recognition*, the Company reviews its tax positions to determine whether it is "more likely than not" that its tax positions will be sustained upon examination, and if any tax positions are deemed to fall short of that standard, the Company establishes reserves based on the financial exposure and the likelihood that its tax positions would not be sustained. Based on its evaluations, the Company determined that it would not recognize tax benefits on \$1.7 million and \$2.3 million related to uncertain tax positions as of September 30, 2016 and December 31, 2015, respectively. If recognized, of the \$1.7 million of uncertain tax positions as of September 30, 2016, \$0.9 million of these tax positions will impact the Company's effective rate with the remaining \$0.8 million affecting goodwill.

NOTE 15 – RELATED PARTY TRANSACTIONS

During the three month periods ended September 30, 2016 and 2015, the Company obtained legal services totaling \$0.3 million and \$0.4 million, while during the nine month periods ended September 30, 2016 and 2015, the Company obtained legal services totaling \$0.9 million and \$1.1 million respectively, of which \$0.2 million and \$0.1 million was payable as of September 30, 2016 and 2015, and \$0.4 million was payable as of December 31, 2015, respectively to Polsinelli PC, a law firm for which the spouse of the Company's Executive Vice President, General Counsel and Secretary is an attorney and shareholder.

NOTE 16 – NEW ACCOUNTING PRONOUNCEMENTS

Recently issued accounting pronouncements

In August 2016, the Financial Accounting Standards Board ("FASB") issued *ASU 2016-15, Statement of Cash Flows (Topic 230) Classification of Certain Cash Receipts and Cash Payments*. This standard amends and adjusts how cash receipts and cash payments are presented and classified in the statement of cash flows. *ASU 2016-15* is effective for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years and will require adoption on a retrospective basis unless impracticable. If impracticable the Company would be required to apply the amendments prospectively as of the earliest date possible. The Company is currently evaluating the impact that *ASU 2016-15* will have on its statement of financial position or financial statement disclosures.

In May 2016, the FASB issued *ASU 2016-12 - Narrow-Scope Improvements and Practical Expedients*. This standard amends the guidance in *ASU 2014-09* to specifically provide a practical expedient for reflecting contract modifications at transition. The effective date for *ASU 2016-12* is the same as the effective date for *ASU 2014-09, ASU 2015-14, ASU 2016-08*

and *ASU 2016-10*. The Company is currently evaluating the impact that *ASU 2016-12* will have on its statement of financial position or financial statement disclosures.

In April 2016, the FASB issued *ASU 2016-10 - Revenue from Contracts with Customers (Topic 606) — Identifying Performance Obligations and Licensing*. This standard amends the guidance in *ASU 2014-09* and *ASU 2016-08* specifically related to identifying performance obligations and accounting for licenses of intellectual property. The effective date for *ASU 2016-10* is the same as the effective date for *ASU 2014-09*, *ASU 2015-14* and *ASU 2016-08*. The Company is currently evaluating the impact that *ASU 2016-10* will have on its statement of financial position or financial statement disclosures.

In March 2016, the FASB issued *ASU 2016-08 - Revenue from Contracts with Customers: Principal versus Agent Considerations*. The amendments of this standard are intended to improve the operability and understandability of the implementation guidance on principal versus agent considerations. The effective date for *ASU 2016-08* is the same as the effective date for *ASU 2014-09* and *ASU 2015-14*. The Company is currently evaluating the impact that *ASU 2016-08* will have on its statement of financial position or financial statement disclosures.

In February 2016, the FASB issued *ASU 2016-02 - Leases* which establishes a comprehensive new lease accounting model. The new standard clarifies the definition of a lease and causes lessees to recognize leases on the balance sheet as a lease liability with a corresponding right-of-use asset for leases with a lease term of more than one year. *ASU 2016-02* is effective for financial statements issued for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. Early adoption is permitted. The new standard requires a modified retrospective transition for capital or operating leases existing at or entered into after the beginning of the earliest comparative period presented in the financial statements, but it does not require transition accounting for leases that expire prior to the date of initial application. The Company is currently evaluating the impact that *ASU 2016-02* will have on its statement of financial position or financial statement disclosures.

In August 2015, the FASB issued *ASU No. 2015-14 - Revenue from Contracts with Customers (Topic 606) - Deferral of the Effective Date*, which defers the effective date of *ASU 2014-09* for one year and permits early adoption as early as the original effective date of *ASU 2014-09*. The new revenue standard may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of adoption. The Company is currently evaluating the impact that *ASU 2014-09* will have on its statement of financial position or financial statement disclosures.

In July 2015, the FASB issued *ASU 2015-11 - Inventory*. *ASU 2015-11* simplifies the measurement of inventory by requiring inventory to be measured at the lower of cost and net realizable value. *ASU 2015-11* is effective for financial statements issued for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. The Company is currently evaluating the impact that *ASU 2015-11* will have on its statement of financial position or financial statement disclosures.

In August 2014, the FASB issued *ASU 2014-15 - Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern*, to provide guidance on management's responsibility in evaluating whether there is substantial doubt about a company's ability to continue as a going concern and to provide related footnote disclosures. *ASU 2014-15* is effective for financial statements issued for fiscal years ending after December 15, 2016, and interim periods thereafter. The Company is currently evaluating the impact that *ASU 2014-15* will have on its statement of financial position or financial statement disclosures.

In May 2014, FASB issued *ASU 2014-09 - Revenue from Contracts with Customers*, which provides guidance for revenue recognition. *ASU 2014-09* affects any entity that either enters into contracts with customers to transfer goods or services or enters into contracts for the transfer of nonfinancial assets and supersedes the revenue recognition requirements in *ASC 605 - Revenue Recognition*, and most industry-specific guidance. This ASU also supersedes some cost guidance included in *ASC 605-35 - Revenue Recognition-Construction-Type and Production-Type Contracts*. The standard's core principle is that a company will recognize revenue when it transfers promised goods or services to customers in an amount that reflects the consideration to which a company expects to be entitled in exchange for those goods or services. In doing so, companies will be required to use more judgment and make more estimates than under previous guidance. These may include identifying performance obligations in the contract, estimating the amount of variable consideration to include in the transaction price and allocating the transaction price to each separate performance obligation. The Company may adopt the new standard under the full retrospective approach or the modified retrospective approach, as permitted under the standard. Early adoption of the standard is not permitted. The Company is currently evaluating the impact that *ASU 2014-09* will have on its statement of financial position or financial statement disclosures.

Recently adopted accounting pronouncements

In March 2016, the FASB issued *ASU 2016-09 - Compensation - Stock Compensation*, which simplifies the accounting for the tax effects related to stock based compensation, including adjustments to how excess tax benefits and a company's payments for tax withholdings should be classified, amongst other items. *ASU 2016-09* is effective for financial statements issued for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years with early adoption permitted. *ASU 2016-09* was early adopted by the Company for the year beginning January 1, 2016 and resulted in various effects, most notably a reduction in income tax expense and tax provision rate due to stock option exercises in the three and nine months ended September 30, 2016.

In November 2015, the FASB issued *ASU 2015-17 - Balance Sheet Classification of Deferred Taxes* to simplify the presentation of deferred income taxes. *ASU 2015-17 - Balance Sheet Classification of Deferred Taxes* requires that deferred tax liabilities and assets be classified as noncurrent in a classified statement of financial position. *ASU 2015-17 - Balance Sheet Classification of Deferred Taxes* is effective for financial statements issued for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. *ASU 2015-17 - Balance Sheet Classification of Deferred Taxes* was early adopted by the Company for the year beginning January 1, 2016 resulting in the reclassification of the current portion of deferred tax assets to non-current deferred tax assets for both the quarter and year to date period ended September 30, 2016 and the year ended December 31, 2015.

In September 2015, the FASB issued *ASU 2015-16 - Business Combinations*. *ASU 2015-16 - Business Combinations* simplifies the accounting for measurement-period adjustments by requiring adjustments to provisional amounts in a business combination to be recognized in the reporting period in which the adjustment amounts are determined and eliminates the requirement to retrospectively account for those adjustments. *ASU 2015-16 - Business Combinations* requires an entity to present separately on the face of the income statement or disclose in the notes the amount recorded in current-period earnings that would have been recorded in previous reporting periods if the adjustment to the provisional amounts had been recognized as of the acquisition date. *ASU 2015-16 - Business Combinations* was adopted by the Company for the year beginning January 1, 2016 and did not have a material impact on the Company's condensed consolidated financial statements or financial statement disclosures.

In April 2015, the FASB issued *ASU 2015-03 - Interest - Imputation of Interest*, which simplifies the presentation of debt issuance costs by requiring that debt issuance costs be presented in the balance sheet as a direct deduction from the carrying amount of debt liability, consistent with debt discounts or premiums. *ASU 2015-03* is effective for financial statements issued for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. *ASU 2015-03* was adopted by the Company for the year beginning January 1, 2016 resulting in the reclassification of the deferred financing fees to the respective face value of debt outstanding for both the quarter and year to date period ended September 30, 2016 and the year ended December 31, 2015.

NOTE 17 – SHARE REPURCHASES

In July 2016, the Company announced that the Board of Directors authorized a stock repurchase program (the "Stock Repurchase Program") pursuant to which the Company may repurchase up to \$200.0 million of the Company's common stock. The shares may be repurchased from time to time in open market transactions at prevailing market prices, in privately negotiated transactions or others, including accelerated stock repurchase arrangements, pursuant to a Rule 10b5-1 repurchase plan or by other means in accordance with federal securities laws. The timing and the amount of any repurchases will be determined by the Company's management based on its evaluation of market conditions, capital allocation alternatives, and other factors. There is no guarantee as to the number of shares that will be repurchased, and the repurchase program may be suspended or discontinued at any time without notice and at the Company's discretion, and at this time no estimate to the effect on the results of the Company due to the Stock Repurchase Program can be made.

During the three and nine months ended September 30, 2016, the Company repurchased 0.9 million shares at an average price of \$27.74 under open market transactions at prevailing market prices in accordance with Rule 10b-18. As of the period ended September 30, 2016, the Company had \$175.0 million remaining repurchase authorization.

Companies incorporated under Louisiana law are subject to the Louisiana Business Corporation Act ("LBCA"). Provisions of the LBCA eliminate the concept of treasury stock and require that shares repurchased by a company are to be treated as authorized but unissued shares instead of treasury stock. As a result, all stock repurchases are presented as a reduction to issued and outstanding shares of common stock, the stated par value of common stock and retained earnings.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

FORWARD-LOOKING STATEMENTS AND FACTORS AFFECTING FUTURE RESULTS

Certain statements in this Form 10-Q are forward-looking in nature and are intended to be "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These statements relate to future events or future financial performance. In some cases, you can identify forward-looking statements by terminology such as "may," "should," "will," "could," "expects," "plans," "intends," "anticipates," "believes," "estimates," "predicts," "potential" or "continue" or the negative of such terms or other comparable terminology. Any forward-looking statements, including statements regarding our intent, beliefs or expectations are not guarantees of future performance. These statements are subject to risks and uncertainties and actual results, levels of activity, performance or achievements may differ materially from those in the forward-looking statements as a result of various factors. See "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015, as filed with the SEC on May 10, 2016 and in this Form 10-Q, which include, but are not limited to, the following items:

- The effects of the restatement and our ability to remediate material weaknesses;
- Our ability to continue to comply with all of the requirements of the U.S. Food and Drug Administration, including current Good Manufacturing Practices regulations;
- Our ability to obtain and maintain regulatory approvals for our products;
- Our success in developing, manufacturing, acquiring and marketing new products;
- Our ability to bring new products to market and the effects of sales of such products on our financial results;
- The effects of competition from other generic pharmaceuticals and from other pharmaceutical companies;
- Availability of raw materials needed to produce our products;
- The effects of federal, state and other governmental regulation on our business;
- Our ability to successfully integrate acquired businesses and products;
- The success of our strategic partnerships for the development and marketing of new products;
- The Company may be subject to litigation of a material nature, including but not limited to, the matters discussed in Note 12 - "*Commitments and Contingencies*" under the heading "*Legal Proceedings*";
- Our ability to obtain additional funding or financing to operate and grow our business; and
- Our ability to generate cash from operations sufficient to meet our working capital requirements, satisfy our debt obligations and execute any share repurchases.

If any of these risks or uncertainties materialize, or if our underlying assumptions prove to be incorrect, actual results may vary significantly from what we projected. As a result, you should not place undue reliance on any forward-looking statements. Any forward-looking statement you read in the following Management's Discussion and Analysis of Financial Condition and Results of Operations reflects our current views with respect to future events and is subject to these and other risks, uncertainties, and assumptions relating to our operations, results of operations, growth strategy, and liquidity. Unless required by law, we undertake no obligation to publicly update any forward-looking statements for any reason, whether as a result of new information, future events, or otherwise.

RESULTS OF OPERATIONS

The following table sets forth the amounts and percentages of total revenue for certain items from our Condensed Consolidated Statements of Comprehensive Income and our segment reporting information for the three and nine months ended September 30, 2016 and 2015 (dollar amounts in thousands):

	Three Months Ended September 30,				Nine Months Ended September 30,			
	2016		2015		2016		2015

THREE MONTHS ENDED SEPTEMBER 30, 2016 COMPARED TO THREE MONTHS ENDED SEPTEMBER 30, 2015

Net revenue was \$284.1 million during the three month period ended September 30, 2016, representing an increase of \$27.3 million, or 10.6%, over our revenue of \$256.8 million for the prior year three month period ended September 30, 2015. The increase in revenue in the quarter was primarily due to organic volume growth in comparison to the prior year quarter. Of the increase, organic revenues increased \$27.5 million with \$31.3 million, or 113.8% due to increased volumes as a result of recent product portfolio gains, partially offset by a \$3.8 million revenue decline from price changes due to competitive pricing pressure which increased the gross to net revenue deductions given the nature of our business and industry. New product revenues increased \$3.5 million, which was more than offset by a \$3.7 million decline due to products discontinued during the interim period.

The Prescription Pharmaceuticals segment revenues of \$268.9 million represented an increase of \$27.9 million, or 11.6%, over the prior year quarter, with organic revenues accounting for \$28.1 million of the increase. New or recently re-launched products revenues increased \$3.5 million but were offset by discontinued products which decreased \$3.7 million compared to the prior year quarter. The Consumer Health segment revenues of \$15.2 million represented a decrease of \$0.6 million, or 3.7%, over the prior year quarter due principally to organic revenue declines of over-the-counter products, due largely to pricing incentives, partially offset by private label product revenue gains.

Consolidated gross profit for the quarter ended September 30, 2016 was \$170.2 million, or 59.9% of revenue, compared to \$163.0 million, or 63.5% of revenue, in the corresponding prior year quarter. The \$7.2 million increase in gross profit dollars

was principally the result of the 10.6% increase in revenue in comparison to the prior period. The decline in the gross profit percentage is principally due to price declines within the generic product portfolio, unfavorable product mix shifts, and costs associated with price changes. These declines were partially offset by increased volume and price for an unapproved product.

The gross profit margin from sales in the Prescription Pharmaceuticals segment for the three month period ended September 30, 2016 was 60.7% compared to 64.4% in the three months ended September 30, 2015. The decrease in the gross margin percentage was due to price declines within the generic product portfolio, unfavorable product mix shifts, and costs associated with price changes. These declines were partially offset by increased volume and price for an unapproved product. The gross profit margin from sales in the Consumer Health segment for the three month period ended September 30, 2016 was 45.5% compared to 49.2% in the three months ended September 30, 2015. This decrease was primarily due to increased pricing incentives, partially offset by margin gains from other Consumer Health products.

Total operating expenses were \$83.4 million in the three month period ended September 30, 2016, an increase of \$11.2 million, or 15.4%, over the prior year quarter, which was primarily due to the impairment of two currently marketed product assets and additional costs associated with the growth of the business, principally in headcount growth in the quarter and interim period, partially offset by reduced expenses associated with the restatement of 2014 financials incurred in the period. Drivers of the increase were principally comprised of the following fluctuations:

Selling, general and administrative (“SG&A”) expenses were \$47.1 million in the three month period ended September 30, 2016, an increase of \$2.1 million, or 4.6%, over the prior year quarter expense of \$45.0 million. Significant increases in SG&A expenses in comparison to the prior year quarter included a \$4.9 million increase in wages, related costs and other compensation expenses, due to increased headcount growth from the comparative period and a \$1.7 million increase in marketing and sales expenses, partially offset by a reduction in restatement expenses of \$4.4 million or 45.8% from the prior year quarter amount of \$9.6 million. As a percentage of sales, SG&A expenses decreased to 16.6% in the three month period ended September 30, 2016 as compared to 17.5% in the prior year quarter.

R&D expense was \$10.6 million in the three month period ended September 30, 2016, an increase of \$0.2 million or 1.7% over the R&D expense of \$10.4 million recorded in the prior year quarter. This increase was principally related to increased expenses from R&D headcount growth and costs incurred during the relocation and expansion of one of the Company’s R&D centers to Cranbury, New Jersey. As a percentage of sales, R&D expenses decreased to 3.7% in the three month period ended September 30, 2016 compared to 4.1% in the prior year quarter.

Amortization of intangibles consists of the amortization of drug acquisition costs over the anticipated market lives of the acquired products, as well as the amortization of other intangible assets acquired through business combinations. Amortization of intangibles remained flat through the period at \$16.5 million in the three month period ended September 30, 2016 and 2015. As a percentage of sales, amortization expenses decreased to 5.8% in the three month period ended September 30, 2016 compared to 6.4% in the prior year quarter.

During the quarter ended September 30, 2016, the Company impaired two currently marketed products given changing market dynamics. The total impairment expense in the quarter was \$9.2 million or 3.2% of sales. No material impairment was recognized in the prior year quarter.

In the three month period ended September 30, 2016, we recognized non-operating expenses totaling \$11.6 million compared to \$16.8 million in the prior year quarter. This decrease of \$5.1 million was driven by a decrease of \$2.3 million due to reduced interest expense from our existing and incremental term loans and convertible notes resulting from the \$200.0 million partial term loan repayment made during the first quarter of 2016 and the conversion of outstanding convertible notes during the second quarter of 2016. Further, in the quarter there was a \$3.0 million reduction in other expenses principally resulting from reduced litigation and settlement expenses as compared to the prior year quarter. As a percentage of sales, non-operating expenses decreased to 4.1% in the three month period ended September 30, 2016 compared to 6.5% in the prior year quarter.

For the three month period ended September 30, 2016, we recorded an income tax provision of \$27.3 million on our income before income tax of \$75.2 million or an effective tax provision rate of 36.3%. In the prior year quarter ended September 30, 2015, our income tax provision was \$26.0 million based on an effective tax provision rate of 35.2%. This increase in the tax rate experienced by the Company was principally the result of losses in foreign jurisdictions for which valuation reserves have been applied, partially offset by the tax benefit of stock option exercises in the current quarter.

We reported net income of \$47.9 million for the three month period ended September 30, 2016, or 16.9% of revenues, compared to net income of \$48.0 million for the period ended September 30, 2015, or 18.7% of revenues.

NINE MONTHS ENDED SEPTEMBER 30, 2016 COMPARED TO NINE MONTHS ENDED SEPTEMBER 30, 2015

Net revenue was \$833.2 million during the year to date period ended September 30, 2016, representing an increase of \$128.1 million, or 18.2%, over our revenue of \$705.1 million for the prior year to date period ended September 30, 2015. The increase in revenue in the period was solely due to organic growth in comparison to the prior year quarter, partially offset by reduced acquisition revenues and other non-organic revenue declines. Organic revenues generated \$138.4 million of the increase with \$68.1 million, or 49.2% due to increased volumes from recent product portfolio gains and \$70.3 million from price changes principally due to pricing growth for an unapproved product, partially offset by the competitive nature of our business and industry affecting other products through increased gross to net revenue reserves. Offsetting the organic increase acquisition revenues decreased due to reduced contract manufacturing activities in our Akom AG operations, which generated \$13.1 million of revenue in the year to date period ended September 30, 2016 compared to \$21.7 million of revenue in the prior year to date period, while new or recently relaunched product revenues increased by \$14.0 million but were offset by declines of \$15.7 million in revenues due to products which were discontinued during the period.

The Prescription Pharmaceuticals segment revenues of \$784.6 million represented an increase of \$127.0 million, or 19.3%, over the prior year period, with organic revenues accounting for \$137.4 million of the increase. New or recently re-launched products revenues increased \$14.0 million but were offset by discontinued products which decreased \$15.7 million compared to the prior year to date period and a decrease in Akom AG acquisition revenues of \$8.6 million. The Consumer Health segment revenues of \$48.5 million represented an increase of \$1.0 million, or 2.2%, over the prior year to date period due solely to organic revenue increases.

Consolidated gross profit for the year to date period ended September 30, 2016 was \$505.0 million, or 60.6% of revenue, compared to \$421.6 million, or 59.8% of revenue, in the corresponding prior year to date period. The \$83.4 million increase in gross profit dollars was the result of the 18.2% increase in revenues. The increase in the gross profit percentage is principally due to increased volume and price for an unapproved product, partially offset by price declines within the generic product portfolio, unfavorable product mix shifts, and costs associated with price changes.

The gross profit margin from sales in the Prescription Pharmaceuticals segment for the nine months period ended September 30, 2016 was 61.5% compared to 60.4% in the nine months ended September 30, 2015. The increase in the gross margin percentage was due to increased volume and price for an unapproved product, partially offset by price declines within the generic product portfolio, unfavorable product mix shifts, and costs associated with price changes. The gross profit margin from sales in the Consumer Health segment for the nine month period ended September 30, 2016 was 46.5% compared to 51.1% in the nine months ended September 30, 2015. This decrease was primarily due to increased pricing incentives which decreased respective margins.

Total operating expenses were \$238.2 million in the year to date period ended September 30, 2016, an increase of \$46.8 million, or 24.4%, over the prior year to date period, which was primarily due to additional expenses associated with the restatement of 2014 financials incurred in the current year to date period and additional costs associated with the growth of the business and headcount. Drivers of the increase were principally comprised of the following fluctuations:

Selling, general and administrative (“SG&A”) expenses were \$150.1 million in the year to date period ended September 30, 2016, an increase of \$39.9 million, or 36.2%, over the prior year to date period expense of \$110.2 million. Increases in SG&A expenses in comparison to the prior year to date period included \$30.8 million of restatement expenses in the year to date period September 30, 2016 as compared to \$14.5 million in the prior year to date period, an increase of \$16.3 million or 112.5%. A \$10.3 million or 30.1% increase in wages and related costs, a \$8.6 million increase in other sales, general and administrative expenses and a \$4.7 million increase in other compensation expenses as compared to the prior year period. As a percentage of sales, SG&A expenses increased to 18.0% in the year to date period ended September 30, 2016 as compared to 15.6% in the prior year to date period.

We recorded \$0.4 million of acquisition-related costs during the year to date period ended September 30, 2016, compared to \$1.7 million in the prior year to date period, a decrease of \$1.3 million or 78.8%. The current year expenses were primarily related to integration and legal expenses associated with previously consummated acquisitions, while expenses in the prior year were principally related to the acquisition of Akom AG, integration and legal expenses of previously consummated acquisitions and other smaller amounts from unconsummated acquisitions. As a percentage of

sales, acquisition expenses decreased to 0.0% in year to date period ended September 30, 2016 compared to 0.2% in the prior year to date period.

R&D expense was \$29.0 million in the year to date period ended September 30, 2016, a decrease of \$1.3 million or 4.4% of the R&D expense of \$30.3 million recorded in the prior year to date period. This decrease was principally related to the prior year period IPR&D impairment expense of \$2.6 million, which was not incurred in the current year to date period, partially offset by increased expenses related to R&D headcount growth and costs incurred during the relocation and expansion of one of the Company's R&D centers to Cranbury, New Jersey. As a percentage of sales, R&D expenses decreased to 3.6% in the year to date period ended September 30, 2016 compared to 4.3% in the prior year to date period.

Amortization of intangibles consists of the amortization of drug acquisition costs over the anticipated market lives of the acquired products, as well as the amortization of other intangible assets acquired through business combinations. Amortization of intangibles increased through the period to \$49.4 million in the year to date period ended September 30, 2016, as compared to \$49.2 million in the prior year to date period. As a percentage of sales, amortization expenses decreased to 5.9% in the year to date period ended September 30, 2016 compared to 7.0% in the prior year to date period.

During the year to date period ended September 30, 2016 the Company impaired three currently marketed product given changing market dynamics. The total impairment expense in the period was \$9.4 million or 1.1% of sales. No impairment was recognized in the prior year to date period.

In the year to date period ended September 30, 2016, we recognized non-operating expense totaling \$44.7 million compared to \$47.4 million in the prior year to date period. This decrease of \$2.7 million was primarily driven by a \$6.7 million reduction due to diminished interest expense from our existing and incremental term loans and convertible notes resulting from the \$200.0 million partial term loan repayment made and the conversion of outstanding convertible notes during the current period and a \$3.2 million decrease in other expenses principally resulting from reduced litigation and settlement expenses, partially offset by an increase of \$6.4 million due to deferred financing fee write-off associated with the \$200.0 million interim principal repayment in February 2016. As a percentage of sales, non-operating expenses decreased to 5.3% in the year to date period ended September 30, 2016 compared to 6.7% in the prior year to date period.

For the year to date period ended September 30, 2016, we recorded an income tax provision of \$70.3 million on our income before income tax of \$222.1 million or an effective tax provision rate of 31.6%. In the prior year to date period ended September 30, 2015, our income tax provision was \$64.7 million based on an effective tax provision rate of 35.4%. This reduction in the tax rate experienced by the Company was principally the result of the adoption of ASU 2016-09 as discussed in Part I, Item 1 - Note 14 "*Income Taxes*" and Note 16 "*New Accounting Pronouncements*," partially offset by losses in foreign jurisdictions for which valuation reserves have been applied. The Company anticipates that its effective tax rate for the year 2016 will be approximately 33.3%.

We reported net income of \$151.8 million for the year to date period ended September 30, 2016, or 18.2% of revenues, compared to net income of \$118.0 million for the prior year to date period ended September 30, 2015, or 16.7% of revenues.

FINANCIAL CONDITION AND LIQUIDITY

As of September 30, 2016, we had cash and cash equivalents of \$174.1 million, which were \$172.2 million less than our cash and cash equivalents balance of \$346.3 million as of December 31, 2015. This decrease in cash and cash equivalents was primarily related to operating cash inflows for the period of \$95.6 million more than offset by investing cash outflows of \$46.8 million and financing cash outflows of \$221.2 million. Our net working capital was \$488.7 million at September 30, 2016, compared to \$476.8 million at December 31, 2015, an increase of \$11.9 million.

Operating Cash Flows

<i>(amounts in thousands)</i>	Nine Months Ended September 30,	
	2016	2015
OPERATING ACTIVITIES:		
Consolidated net income	\$ 151,788	\$ 118,013
Adjustments to reconcile consolidated net income to net cash provided by operating activities:		
Depreciation and amortization	65,985	63,835
Amortization of debt financing costs	9,456	3,576
Impairment of intangible assets	9,368	2,627
Amortization of favorable contracts	—	53
Amortization of inventory step-up	—	4,682
Non-cash stock compensation expense	11,282	9,270
Non-cash interest expense	770	2,342
Deferred income taxes, net	(13,346)	(27,579)
Excess tax benefit from stock compensation	—	(47,997)
Non-cash gain on bargain purchase	—	(849)
Loss on extinguishment of debt	—	1,211
Loss on sale of available-for-sale securities	45	238
Other	(765)	—
Changes in operating assets and liabilities, net of acquisition:		
Trade accounts receivable	(112,252)	52,056
Inventories, net	5,744	(41,177)
Prepaid expenses and other current assets	(6,349)	15,442
Trade accounts payable	5,698	9,357
Accrued expenses and other liabilities	(31,803)	86,999
NET CASH PROVIDED BY OPERATING ACTIVITIES	\$ 95,621	\$ 252,099

During the year to date period ended September 30, 2016, operating activities generated \$95.6 million in cash flows. This positive cash flow was principally the result of our consolidated net income of \$151.8 million, an add-back of non-cash expenses of \$82.8 million, a decrease of \$5.7 million in inventories, net and a \$5.7 million increase in trade accounts payable, partially offset by a decrease of \$31.8 million in accrued expenses, an increase of \$112.3 million in accounts receivable and an increase in prepaid expenses and other current assets of \$6.3 million.

During the year to date period ended September 30, 2015, operating activities generated \$252.1 million in cash flows. This positive cash flow was principally the result of our consolidated net income of \$118.0 million, a \$11.4 million net inflow of non-cash expenses, a \$52.1 million decrease in trade accounts receivable, a \$15.4 million decrease in prepaid expenses and other current assets, a \$9.4 million increase in trade accounts payable and a \$87.0 million increase in accrued expenses and other liabilities, partially offset by a \$41.2 million increase in inventories, net.

Investing Cash Flows

<i>(amounts in thousands)</i>	Nine Months Ended September 30,	
	2016	2015
INVESTING ACTIVITIES:		
Payments for acquisitions and equity investments, net of cash acquired	—	(26,908)
Proceeds from disposal of assets	5,966	2,459
Payments for other intangible assets	(3,875)	(3,135)
Purchases of property, plant and equipment	(48,884)	(21,628)
NET CASH USED IN INVESTING ACTIVITIES	\$ (46,793)	\$ (49,212)

We used \$46.8 million in investing activities during the year to date period ended September 30, 2016, consisting of \$48.9 million used to acquire fixed assets and \$3.9 million used to acquire other intangible assets, partially offset by \$6.0 million of inflows from the sales of investments in available-for-sale securities.

We used \$49.2 million in investing activities during the year to date period ended September 30, 2015, consisting of \$26.9 million, net of cash acquired used to acquire Excelvion AG, \$21.6 million used to acquire fixed assets and \$3.1 million for the payment of intangible assets, partially offset by \$2.5 million of inflows from the sales of investments in available-for-sale securities.

Financing Cash Flows

<i>(amounts in thousands)</i>	Nine Months Ended September 30,	
	2016	2015
FINANCING ACTIVITIES:		
Net proceeds under stock option and stock purchase plans	8,891	11,917
Debt financing costs	(5,128)	(4,457)
Payment of contingent acquisition liabilities	—	(6,492)
Debt payments	(200,000)	(7,838)
Common stock repurchases	(25,000)	—
Excess tax benefit from stock compensation	—	47,997
NET CASH (USED IN) PROVIDED BY FINANCING ACTIVITIES	\$ (221,237)	\$ 41,127

Financing activities used \$221.2 million in the year to date period ended September 30, 2016, consisting of a \$200.0 million interim principal repayment made in February, \$25.0 million of common stock repurchases during the third quarter and \$5.1 million paid for financing costs relating to the debt consent waivers, partially offset by \$8.9 million in proceeds under various option exercises.

Financing activities provided us with \$41.1 million in the year to date period ended September 30, 2015, consisting of \$59.9 million generated from employee stock plan activity and proceeds under various options exercises, partially offset by \$7.8 million of debt repayment related to the Hi-Tech and VersaPharm acquisitions, \$6.5 million related to the payment of contingent liabilities in the period and \$4.5 million from the payment of debt financing costs incurred due to the consent waivers obtained in the period.

Revolving Credit Facility Utilization and Availability

As of September 30, 2016, we had no outstanding loans under our \$150.0 million JPM Revolving Facility, and one outstanding letter of credit for \$2.2 million. Our borrowing availability under the JPM Revolving Facility as of September 30, 2016 was \$147.8 million.

Liquidity and Capital Needs

We require certain capital resources in order to maintain and expand our business. Our future capital expenditures may include substantial projects undertaken to upgrade, expand and improve our manufacturing facilities, in the U.S., India and

Switzerland. Most notably, we have previously and continue to expend significant amounts in order to gain compliance with FDA requirements at our India facility. Furthermore, the Company is currently and expects to further expend significant amounts in order to comply with the Federal Drug Supply Chain Security Act by the implementation date in November 2017 and also intends to increase research and development spend through increased headcount. Additionally, the Company may utilize significant amounts of capital to repurchase stock in accordance with the Share Repurchase Program. Our cash obligations include the principal and interest payments due on our Existing Term Loan and Incremental Term Loans, plus any amount we may borrow under the JPMorgan Facility (as described throughout this Report). We believe that our cash reserves, operating cash flows, and availability under our credit facilities will be sufficient to finance any future expansions and meet our cash needs for the foreseeable future.

We continue to evaluate opportunities to grow and expand our business through the acquisition of new businesses, manufacturing facilities, or pharmaceutical product rights. Such acquisitions may require us to obtain additional sources of capital. We cannot predict the amount of capital that may be required to complete such acquisitions, and there is no assurance that sufficient financing for these activities would be available with terms acceptable to us, if at all.

Incremental Term Loan

On August 12, 2014, we completed the VersaPharm Acquisition for a purchase price of approximately \$440 million in cash, net of working capital adjustments. The acquisition was financed primarily through a \$445.0 million incremental term loan. The Incremental Term Loan matures on April 17, 2021 and bears interest at a variable rate based on a margin above prime or LIBOR, at our election. Please refer to Note 8 – "*Financing Arrangements*" for additional information about the Incremental Term Loan.

Existing Term Loan

On April 17, 2014, we completed the Hi-Tech Acquisition for a purchase price of approximately \$650 million in cash. The acquisition was financed primarily through a \$600.0 million term loan. The Existing Term Loan matures on April 17, 2021 and bears interest at a variable rate based on a margin above prime or LIBOR, at our election. Please refer to Note 8 – "*Financing Arrangements*" for additional information about the Existing Term Loan.

Credit Facility

JPMorgan Credit Agreement

On April 17, 2014, concurrent with entering into the Existing Term Loan, we entered into a \$150.0 million revolving credit facility with JPMorgan. Please refer to Note 8 – "*Financing Arrangements*" for additional information about the JPMorgan Credit Agreement.

CRITICAL ACCOUNTING POLICIES

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses. A summary of our significant accounting policies is included in Part II - Item 8, Note 3 - "*Summary of Significant Accounting Policies*", in our Annual Report on Form 10-K for the year ended December 31, 2015 and in Item 1, Note 2 - "*Summary of Significant Accounting Policies*" of this Form 10-Q. Certain of our accounting policies are considered critical, as these policies require significant, difficult or complex judgments by management, often requiring the use of estimates about the effects of matters that are inherently uncertain.

The Company consolidates the financial statements of its foreign subsidiary in accordance with *ASC 830 - Foreign Currency Matters*, under which the statement of operations amounts are translated from Indian rupees ("INR") to U.S. dollars ("USD") and Swiss Francs ("CHF") to USD at the average exchange rate during the applicable period, while balance sheet amounts are generally translated at the exchange rate in effect as of the applicable balance sheet date. Cash flows are translated at the average exchange rate in place during the applicable period. Differences arising from foreign currency translation are included in accumulated other comprehensive loss and are carried as a separate component of equity on our condensed consolidated balance sheets.

OFF-BALANCE SHEET ARRANGEMENTS

We do not have any off-balance sheet arrangements that have had, or are reasonably likely to have, a current or future material effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures, or capital resources.

[41]

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

There has been no material change in the information reported under Part II, Item 7A - "*Quantitative and Qualitative Disclosures About Market Risk*" in our Form 10-K for the fiscal year ended December 31, 2015.

Item 4. Controls and Procedures.

Evaluation of Disclosure Controls and Procedures

Our management evaluated, with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as of and for the nine months ended September 30, 2016.

Based on this evaluation, our Chief Executive Officer and Chief Financial Officer have concluded that, because of the material weaknesses in internal control over financial reporting described in our Form 10-K for the year ended December 31, 2015 as filed on May 10, 2016, our disclosure controls and procedures were not effective as of and for the nine months ended September 30, 2016.

A material weakness is a deficiency, or a combination of deficiencies, in internal control over financial reporting, such that there is a reasonable possibility that a material misstatement of our annual or interim financial statements will not be prevented or detected on a timely basis. Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In prior filings, we identified and reported material weaknesses in the Company's internal control over financial reporting, which still exist as of and for the nine months ended September 30, 2016, due to ongoing remediation and testing procedures. In response to the identified material weaknesses, our management, with oversight from our audit committee, has dedicated significant resources to improve our control environment and to remedy the identified material weaknesses.

We believe that we have designed and implemented the appropriate controls to fully remediate the material weaknesses. However, the Company is required to demonstrate the effectiveness of the new processes for a sufficient period of time. Therefore, until all remedial actions as described fully in our 2015 Form 10-K, as filed on May 10, 2016, including the efforts to test the necessary control activities we identified, are fully completed, the material weaknesses identified will continue to exist.

During the nine months ended September 30, 2016, the Company commenced testing of the redesigned controls directly related to the identified material weaknesses. In addition, key employees were added to the Finance and Information Technology areas, and new company Mission and Values statements were launched.

Changes in Internal Control Over Financial Reporting

Except as discussed above, there were no changes in our internal control over financial reporting (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934), as of and for the nine months ended September 30, 2016 that has materially affected, or is reasonably likely to materially affect the Company's internal control over financial reporting.

Except as discussed above, with respect to the material weaknesses that were identified in the Form 10-K for the year ended December 31, 2015, there have been no significant changes in our internal control over financial reporting. Our leadership team, together with other senior executives, continues to test the control activities associated with the material weaknesses identified in our Form 10-K for the year ended December 31, 2015. We are committed to achieving and maintaining a strong control environment, high ethical standards, and financial reporting integrity and transparency.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings.

The Company's disclosure of legal proceedings within Part I - Item 1, Note 12 - "*Commitments and Contingencies*" of this Report, is incorporated into this Part II - Item 1 by reference.

Item 1A. Risk Factors.

Other than the risk factor described below, there have been no material changes to the risk factors disclosed in Part 1 - Item 1A, of our Form 10-K for the year ended December 31, 2015.

Our announced stock repurchase program could affect the price of our common stock and increase volatility and may be suspended or terminated at any time, which may result in a decrease in the trading price of our common stock.

In July 2016, the Board authorized a stock repurchase program (the "Stock Repurchase Program"). The Company may effect repurchases under the Stock Repurchase Program from time to time in the open market, in privately negotiated transactions or otherwise, including accelerated stock repurchase arrangements. The timing and actual number of shares repurchased under the Stock Repurchase Program depends on a variety of factors, including the timing of open trading windows, price, corporate and regulatory requirements and other market conditions. Repurchases pursuant to such program could affect our stock price and increase its volatility. The program will not obligate the Company to repurchase any dollar amount or number of shares of common stock and may be suspended or discontinued at any time, which could cause the market price of our common stock to decline. The existence of a stock repurchase program could also cause our stock price to be higher than it would be in the absence of such a program and could potentially reduce the market liquidity for our stock. There can be no assurance that any stock repurchases will occur or that if they do, that they will enhance stockholder value as the market price of our common stock may decline below the levels at which we repurchased shares of common stock. In addition, short-term stock price fluctuations could reduce the program's effectiveness.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(c) Issuer Purchases of Equity Securities

During the three and nine months ended September 30, 2016, the Company repurchased a total of approximately 0.9 million shares at an average price of \$27.74 per share of common stock. See Part I, Item 1 - Note 17 - "*Share Repurchases*" for further information. The Companies activity during the quarter is summarized in the following table:

Period	Total Number of Shares Repurchased	Average Price Paid per Share (including commission costs)	Total Number of Shares Purchased as Part of Publicly Announced Plans or Programs	Dollar Value of Shares that may yet be Purchased under the Plans or Programs
July 1-31, 2016	—	\$ —	—	\$ 200,000,000
August 1-31, 2016	—	\$ —	—	\$ 200,000,000
September 1-30, 2016	901,382	\$ 27.74	901,382	\$ 175,000,026
Quarterly Total	<u>901,382</u>		<u>901,382</u>	

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Mine Safety Disclosures.

Not applicable.

Item 5. Other Information.

None.

Item 6. Exhibits.

The list of exhibits in the Exhibit Index to this Report is incorporated herein by reference.

SIGNATURES

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

EXHIBIT INDEX

Those exhibits marked with a (*) refer to exhibits filed herewith.

Exhibit No.	Description
31.1 *	Certification of Chief Executive Officer pursuant to Rule 13a-14(a).
31.2 *	Certification of Chief Financial Officer pursuant to Rule 13a-14(a).
32.1 *	Certification of Chief Executive Officer pursuant to 18 U.S.C. § 1350.
32.2 *	Certification of Chief Financial Officer pursuant to 18 U.S.C. § 1350.
101 *	The financial statements and footnotes from the Akorn, Inc. Quarterly Report on Form 10-Q for the three and nine month periods ended September 30, 2016, filed on November 3, 2016, formatted in XBRL: (i) Condensed Consolidated Balance Sheets, (ii) Condensed Consolidated Statements of Comprehensive Income, (iii) Condensed Consolidated Statement of Shareholders' Equity, (iv) Condensed Consolidated Statements of Cash Flows, and (v) Notes to Condensed Consolidated Financial Statements.

CERTIFICATION OF PRINCIPAL EXECUTIVE OFFICER

I, Rajat Rai, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Akom, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
